

A delightfully fragrant Deodorant and Germicide for the home.

Watkins Pine Oil Disinfectant, because of its germicidal properties, grease-dissolving action, and deodorizing qualities is especially suited for use in the home. For use as a germicide, the Disinfectant should remain in contact with treated surface for at least 10 minutes.

IN SCRUB WATER

For scrubbing floors and washing woodwork, tiles, cabinets, closets and basement, use 4 tablespoons to 1 gallon water.

IN THE LAUNDRY

To aid in deodorizing and cleaning laundry, add 1 or 2 tablespoons to water in washer. Helps remove dirt and imparts clean, fresh odor to clothes.

IN THE BATHROOM

Wash lavatory, tub, stool and tiles with 6 tablespoons of Disinfectant in 1 gallon water.

IN PUBLIC PLACES

To deodorize and disinfect in public buildings, spray or wash floors, walls and ceiling freely with a solution made with 4 tablespoons of Disinfectant added to each gallon of water.

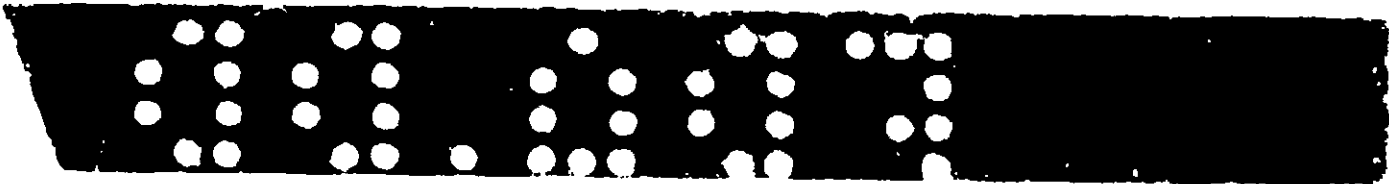

IN GARBAGE RECEPTACLES

Daily spraying or washing of receptacles with a solution of 1 tablespoon of Disinfectant in 1 pint of water will check development of odors and help prevent breeding of flies.

CAUTION:

Harmful if swallowed. If swallowed, do not induce vomiting. Vomiting may be harmful. Consult physician. Keep out of eyes. If contact occurs, wash eyes immediately with water. Avoid contamination of food. Rinse empty container thoroughly with water and discard.
