

Spring air freshness, all day -  
every day - automatically

**Room Refresher** . . . Place block in closet, bathroom, basement, kitchen, to help replace lingering odors (even musty odors!) with fresh springtime scent.

**Moth Protection** . . . Clean or brush garments thoroughly for storage. Remove wrapper from block and place near top of storage space as vapor works downward. Use one block for each 15 cubic feet (approx. 2 ft. x 2 ft. x 4 ft.) of tightly confined space. Keep tightly sealed for at least 7 days. Use additional blocks to allow for vapor loss if garments are removed or replaced.

**Caution:** Harmful if swallowed. Avoid prolonged breathing of vapor or repeated contact with skin. Do not use with any other moth preventive preparation.

**Directions:** Use Watkins Deodorant Block Cabinet where possible. However, blocks may be used in original cellophane wrapper by simply tearing open a small area (approx. 1 sq. in.) of cellophane. Place where desired. Do not allow unwrapped block to come in contact with painted or varnished surface.

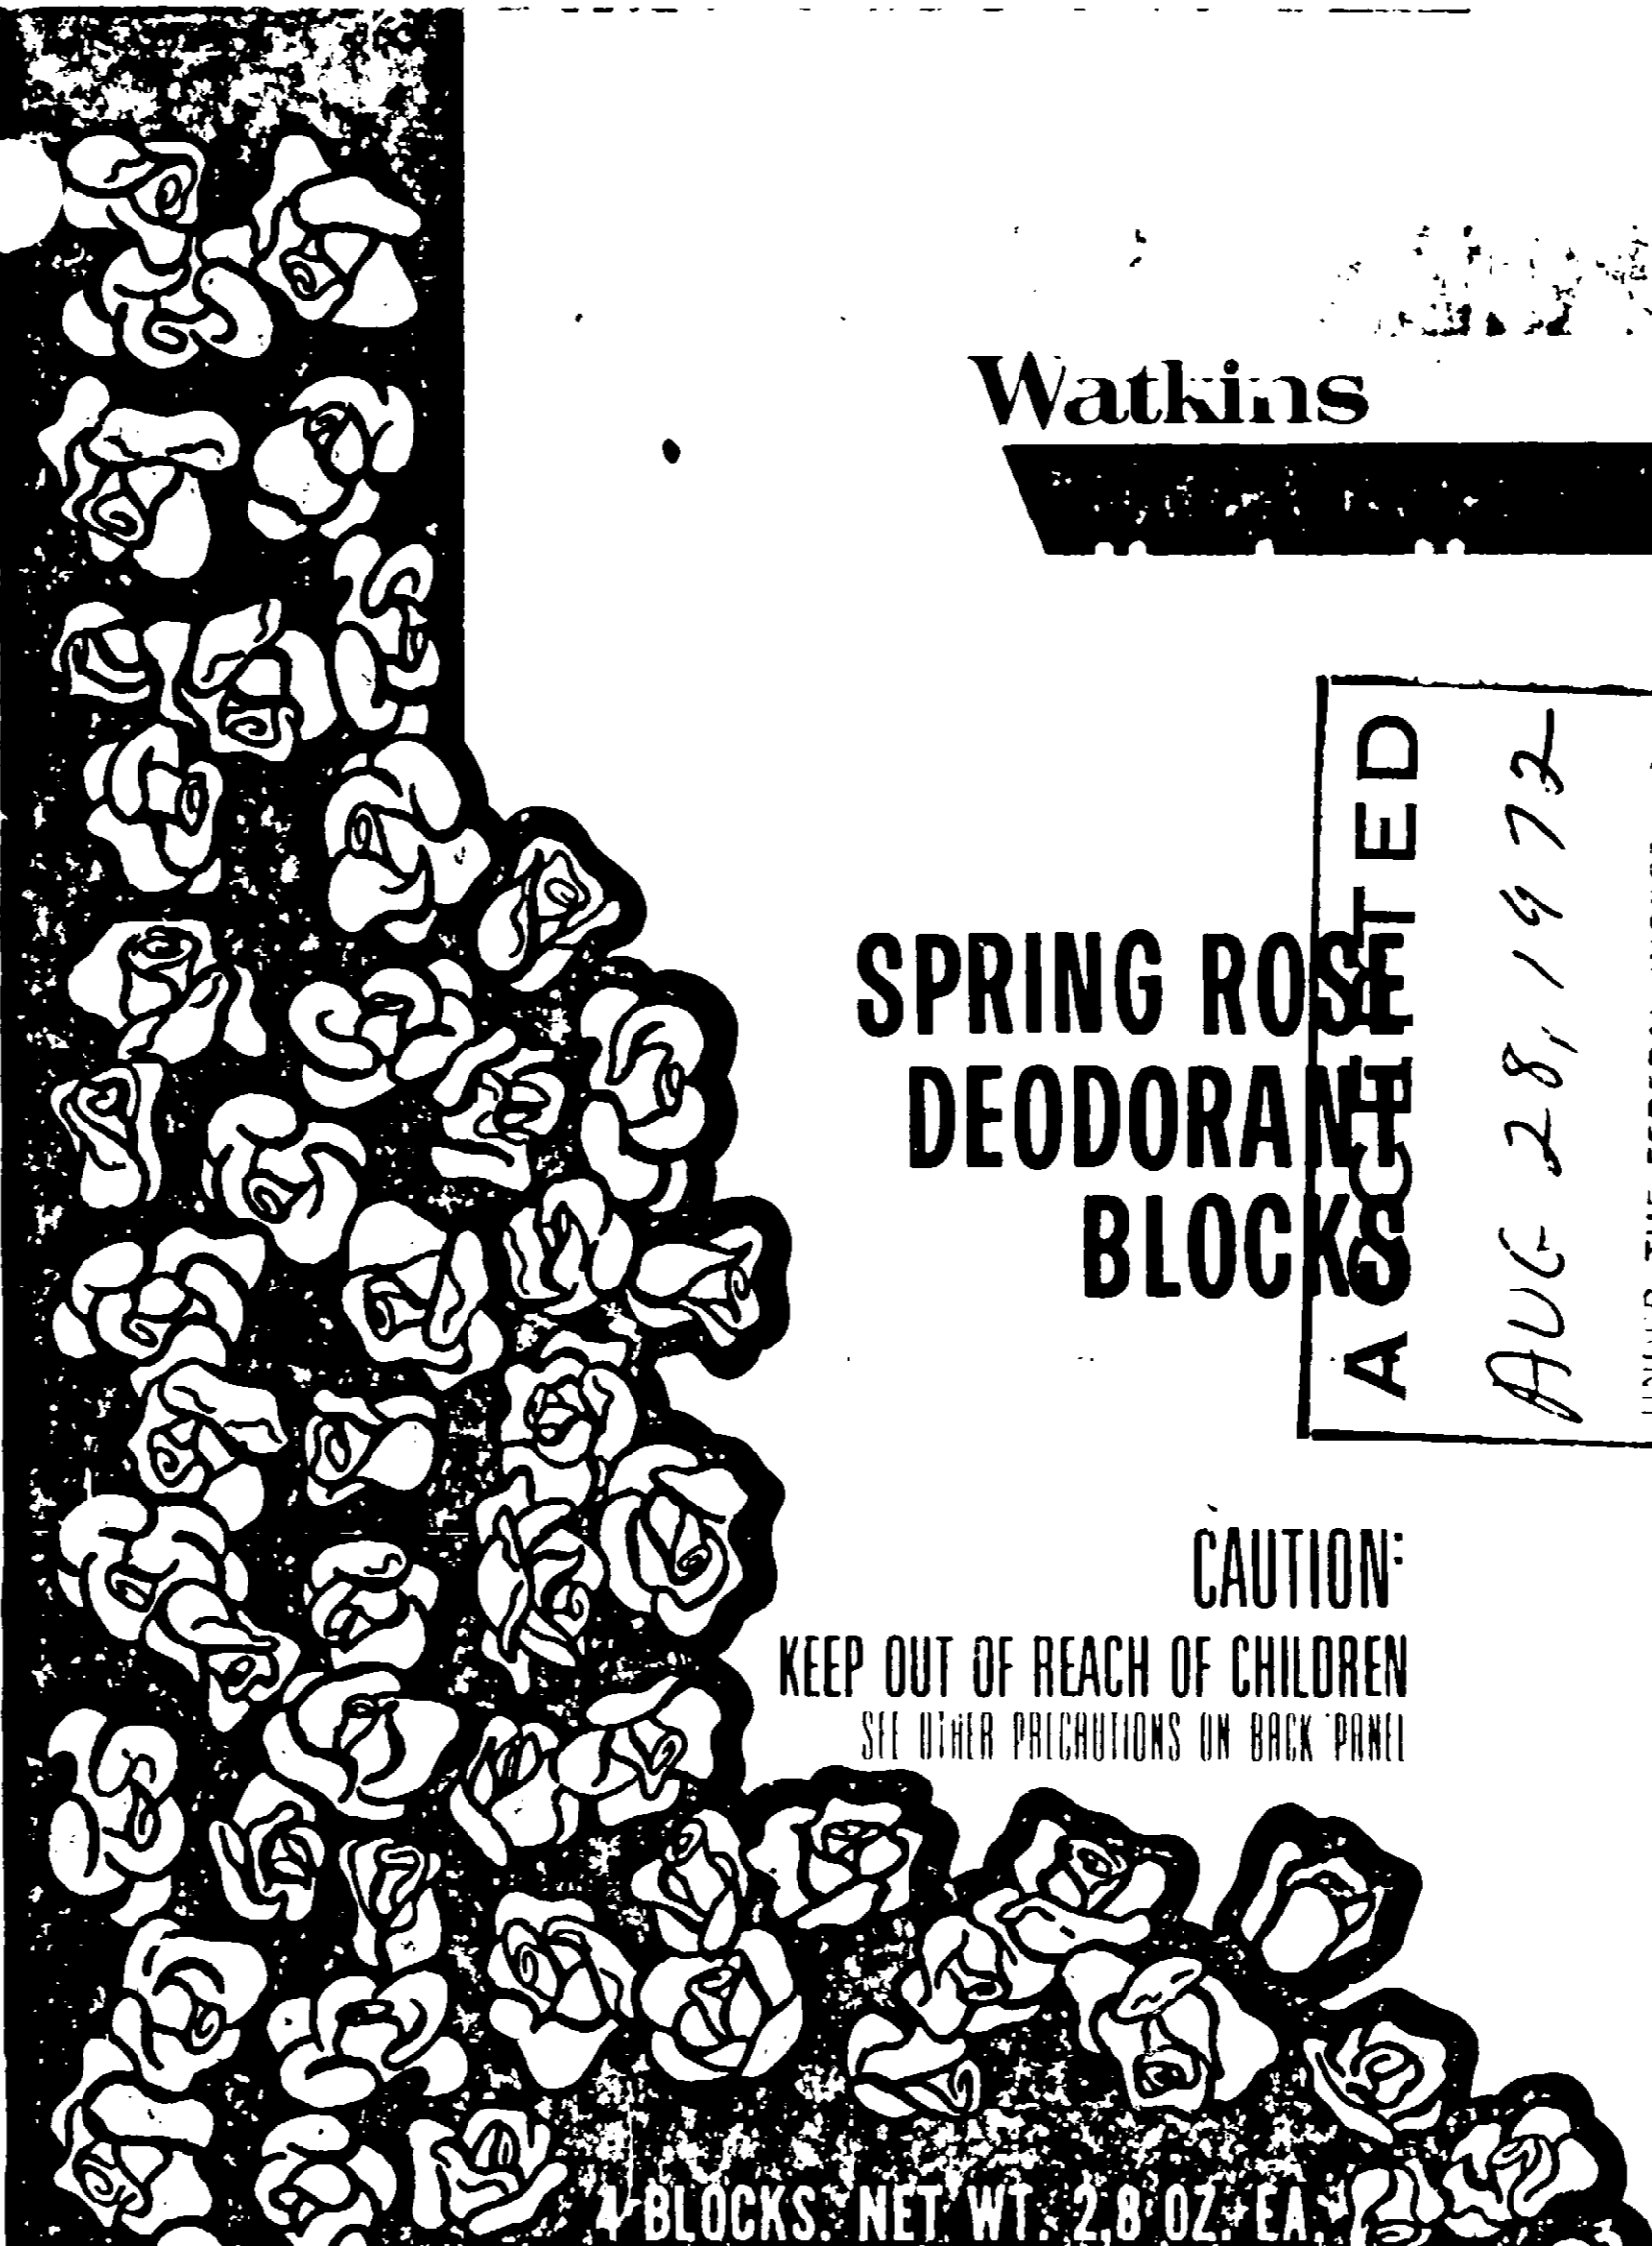

#### BLOCK CABINET DIRECTIONS

Watkins Deodorant Block Cabinet is attractive and convenient—so easy to use. Compact 4½ in. size. To hang, use nail, screw or double face tape (provided).

Remove tape backing and press cabinet against flat surface.

To open cabinet, gently depress tab visible through top opening, pull forward on top front for access to block platform. Place block vertically in cabinet, and remove top one-third of cellophane from block. Close cabinet.

Active ingredients:

**Watkins**

**SPRING ROSE  
DEODORANT  
BLOCK**
