Net Weight

### Directions for Use and Conditions of Sale and Warranty.

**IMPORTANT:** Read the entire directions for use and the conditions of sale and warranty before using this product. If terms are not acceptable, return unopened product at once.

#### Conditions of Sale and Warranty

The **Directions for Use** of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Ineffectiveness, or other unintended consequences may result because of such factors as presence of other materials, or the manner of use or application all of which are beyond the control of Ciba or the Seller. All such risks shall be assumed by the Buyer.

Ciba warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the **Directions for Use** subject to the inherent risks referred to above. **Ciba makes no other express or implied warranty of Fitness or Merchantability or any other express or implied warranty. In no case shall Ciba or the Seller be liable for consequential, special or indirect damages resulting from the use or handling of this product.** Ciba and the Seller offer this product, and the Buyer and user accept it, subject to the foregoing **Conditions of Sale and Warranty**, which may be varied only by agreement in writing signed by a duly authorized representative of Ciba.

#### Directions for Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling. For application to wool:

Use 1 to 1 1/2% of Mitin FF High Conc. calculated on the dry weight of the wool to be treated. Dissolve Mitin separately in the proportion of one pound of Mitin FF High Conc. to 5 gallons of water which is boiling when Mitin is added. Caution: do not boil more than 2 minutes after Mitin is dissolved. Prepare the dyebath by bringing to a temperature of 90°F to 100°F and add the Mitin solution to the bath. Run for 5 minutes and add 2% acetic, formic or sulfuric acid followed by the necessary dyestuff, salt or additional acid, run 5 minutes, raise slowly to dyeing temperature and proceed as usual with the dye. Temperatures of 160° - 212°F are sufficient to exhaust and fix Mitin on the wool fiber. Best fixation, however, is obtained near the boil.

### Storage and Disposal

Store below 130°F. Do not contaminate water, food or feed by storage or disposal. Wastes from the use of this product may be disposed of on site or at an approved waste disposal facility. Completely empty liner by shaking and tapping sides and bottom to lessen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill or by incineration if allowed by State and local authorities. If drum is contaminated and cannot be reused, dispose of in the same manner.

For minor spills, shovel into approved disposal container and vacuum contaminated areas. Avoid creating dusty conditions. Take special care to avoid contamination of equipment and facilities during clean up procedures and disposal of wastes. In the event of a major spill, fire or other emergency, call (800) 888-8372 day or night.

#### Precautionary Statement

##### Hazard to Humans and Domestic Animals

##### CAUTION

Harmful if swallowed or inhaled. Avoid breathing dust. Wash thoroughly with soap and water after handling.

##### Statement of Practical Treatment:

**If swallowed:** Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

##### Environmental Hazards:

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.
