- Leafhoppers
- Millipedes
- Springtails
- Sod webworms
- Sowbugs
- Ticks
- White grubs of:
 - Japanese beetles
 - European chafers
 - Southern chafers

SPECTRACIDE
 Trade-mark of CIBA-GEIGY
 DIAZINON, insecticide
 U.S. Patent No. 2,754,243

Spectracide
 Granular
 lawn insect control

12 1/2 LBS.
 Net Weight

Treats up to 2500 square feet

Ready-to-use. Contains 2%
 Diazinon insecticide

Caution:
 Keep out of reach of children
 See additional caution state-
 ments on back panel

Active Ingredient
 O, O-diethyl O (2-isopropyl 6-
 methyl-4-pyrimidinyl) phosphor-
 othioate 2%

Inert Ingredients 98%
 Total 100%

- Controls:**
- Chinch bugs
 - Sod webworms
 - Lawn moths
 - Earwigs
 - White grubs of
 - Japanese beetles
 - European chafers
 - Southern chafers
 - Billbugs
 - and many others

(See complete list on side and back of bag)

NOTE:
 All weights are in pounds.
 Active ingredient weight is the weight of the
 active ingredient only. The weight of the
 material in the spreader is the weight of the
 material plus the weight of the spreader.

DO NOT RE-USE THIS CONTAINER. DESTROY WHEN EMPTY.

THE CONTENTS OF THIS PACKAGE
TREATS UP TO 2500 SQUARE FEET

Spectracide®

Granular

lawn insect control

OVERALL LAWN APPLICATION

• Spectracide Granules control the following lawn insects on both irrigated and non-irrigated lawns:

**Chinch Bugs Earwigs Ticks Ants Lawn Moths (Sod Webworms) Bermuda Mites
Crickets Armyworms Brown Dog Ticks Chiggers Clover Mites Cutworms Fleas
Leathoppers Sowbugs Millipedes Springtails (Collembola)**

• Apply Spectracide Granules to your lawn with a fertilizer spreader at the rates shown on the side panel chart. Application should be made when grass is dry. Water lawn lightly after application. Repeat as necessary.

• For application with other types of equipment or by hand, apply at the rate of 5 lbs. per 1000 sq. ft. (an area 20 by 40) or 8 oz. per 100 sq. ft. (an area 10 by 10). For heavy lawns such as St. Augustine lawns, application should be increased to 7.5 lbs. per 1000 sq. ft. or 12 oz. per 100 sq. ft.

Billbugs and White Grubs of Japanese Beetle, European Chafer, Southern Chafer
Apply 6 lbs. per 1000 sq. ft. of lawn in late spring or early summer. For grub control, make application every 4 to 6 weeks between late July and early October. For grub control, apply when a large number of grubs are present in the soil and lawn damage from these grubs is frequent or excessive.

Hyperodes Weevil (New York only)

Apply 5 lbs. per 1000 sq. ft. of grass. Water immediately after application. If a problem is assumed April and again in mid-May.

SPOT TREATMENT

ANTS Apply to the nest entrance. The granules will travel into the nest to kill the ants.

DIGGER WASPS Apply to the entrance hole in the ground. The granules will travel into the hole to kill the wasps. Make the application in late spring or early summer.

BAND TREATMENT AROUND FOUNDATION

This granular insecticide can be used to control ants, crickets, millipedes, sowbugs, and springtails around the foundation of your house.

Ants	Crickets	Millipedes
Brown Dog Ticks	Earwigs	Sowbugs
Clover Mites	Fleas	Springtails (Collembola)

For control of these insects, apply a band of granules around the foundation of your house. Apply the granules in late spring or early summer. Repeat the application as necessary.

CAUTION - This granular insecticide is highly toxic to fish and aquatic life. Do not apply to lawns near ponds, streams, or other bodies of water. Do not apply to lawns near swimming pools. Do not apply to lawns near lawns, lawns, or other areas where children or pets play. Do not apply to lawns near lawns, lawns, or other areas where children or pets play. Do not apply to lawns near lawns, lawns, or other areas where children or pets play.
