Spectracide

Granular

lawn insect control

Ready-to-use.
Contains 2% Diazinon
insecticide.

Keep Out of Reach
of Children.

Caution

See additional caution statements
on back of bag

Active ingredient	
O, O-dimethyl 2-isopropyl	
6-methyl-4-pyrimidinyl	
phosphorothioate	2
Inert ingredients	98
Total	100%

12½ lbs.
Net Weight

Controls:

Chinch bugs
Sod webworms
Lawn moths
Earwigs

Fire Ants*

White grubs of

- Japanese beetle
- European chafer
- Southern chafer

Billbugs

and many others

*Aids in control

(See complete list on side
and back of bag)

Spectracide kills:

Ants	Crickets	Millipedes

• Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

• Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

• Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

Billbugs, White grubs of Japanese beetle, European chafer, Southern chafer, *Araeonus spretulus* (dung beetle)

Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

Hyperodes Weevil (New York only)

Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

SPOT TREATMENT

ANTS: Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

FIRE ANTS: Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

Note: Do not apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

CRICKETS: Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

FLIES: Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

BAND TREATMENT AROUND FOUNDATION

Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

Disposal: Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

Precautionary Statements: Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

Hazards to Humans and Domestic Animals: Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

CAUTION: Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

Environmental Hazards: Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

Apply Spectracide to the lawn in early spring, late spring, or early fall. Apply to the lawn once a month during the growing season.

NOTE

The spreader settings listed below are approximate. Accurately weigh a few pounds into your spreader and apply to a measured area. Then adjust the spreader setting if necessary in order to assure correct rate of application.

SPREADER SETTING NO. (per 1000 sq ft)

Spreader Model	Insects listed below	White Grubs and Billbugs only	
John Deere Model N 1462 G	7 1/2	8 1/2	8
