# Spectracide

half gallon  
insecticide and  
trigger sprayer with  
2-way nozzle—spray or stream

## Ready to use outdoors

Window frames and doorways

Garbage can areas

Patio areas

Around house foundations

**ACCEPTED**

APR 8 1976

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. **100-477**

# Ready to use indoors

**Controls:** Cockroaches (waterbugs), ants, silverfish, brown dog ticks, spiders, crickets, earwigs, sawbugs, flies, mosquitoes, flying moths, wasps, and other insects as specified in label directions.

**Areas:** Under kitchen sinks, refrigerators, and stoves; in cabinets, pantries, basements, and storage areas; on baseboards and other areas where insects hide or walk.

*No unpleasant odor.*

Adjust 2-way nozzle—spray or stream  
 Spray into cracks, crevices and other surface areas as specified in label directions.

**Application**

Hold can upright and spray infested surfaces until wet. Do not use as a space spray. Do not spray on pets or desirable plants. Avoid excessive wetting of asphalt tile, rubber, and plastic materials.

**Directions for Use**

**Indoors\***

**Cockroaches (Waterbugs), Ants, Firebrats, Silverfish, Sowbugs (Pillbugs), Springtails, Spiders, Crickets, Earwigs:** Spray until wet, surfaces behind and beneath cabinets, refrigerators, sinks, stoves, ant trails, and other localized areas infested with insects. Spray window and door frames where ants enter. Treat inaccessible areas, voids around water pipes, cracks, and crevices along baseboard moldings. Repeat as necessary.

**Carpenter beetles:** Make localized application to areas of the floor and baseboards. Spray directly into cracks and under carpets where insects may be found. Treat crevices, cracks, and infested areas of shelving in closets. Repeat as necessary.

**Brown dog ticks:** Spray infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of pets, and localized areas of floors and floor coverings. Repeat as necessary. Fresh bedding should be placed in animal quarters after treatment. Do not treat animals.

**Spiders:** Apply spray around windows, doors, and along baseboards. Make spot applications to other areas over which these pests may crawl.

**Surfaces behind and beneath cabinets:** Roaches, ants, silverfish—as a supplement to good housekeeping, spray surfaces behind and beneath cabinets where insects tend to hide. Spray until wet. Remove all food before spraying. Infested food packages should be destroyed.

**\*Do not use in edible products area of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.**

**Outdoors**

**Flies, Mosquitoes, Wasps, Flying moths:** For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter.

Treat dark corners and localized resting areas, under eaves, on porches, around patios, and garages. Repeat as necessary. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects alight or congregate.

**Chiggers, Ants, Brown dog ticks, Clover mites:** For treatment of localized infestations of insects in outdoor areas where there is no vegetation to be used for food or feed, spray infested areas. For ants, wet hills and runways. Repeat as necessary.

**Porches, Patios, Garages, and other areas around the house where insects hide and congregate:** To help keep flies, mosquitoes, wasps, and flying moths from entering the house, treat outdoor areas where these insects congregate. This treatment can be an effective addition to total pest control.

**Caution**

**Keep out of reach of children.**

Harmful if swallowed. Avoid contamination of feed and foodstuffs. Avoid inhalation and skin contact; wash thoroughly after using. Do not use on household pets or humans. Do not allow children in treated areas until surfaces are dry.

**Fish and Wildlife Caution**

This product is toxic to fish, birds, and other wildlife. Birds feeding in treated areas may be killed. Keep out of lakes, streams, or ponds. Do not apply where runoff is likely to occur or when weather conditions favor drift from treated areas. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Do not use, pour, spill, or store near heat or open flame.

**Disposal**

Do not reuse empty container. Wrap container and put in trash collection.

**DIRECTIONS FOR USING HOSE  
SPRAYER ATTACHMENT**

Insert tube into can neck and tighten screw cap. Prime by pumping trigger. Turn nozzle to spray desired, pin stream full right or wide spray full left.

- Remove hose and replace can cap between uses to prevent spillage or evaporation.
- Pump sprayer to empty contents remaining in hose.
- Under normal use, hose sprayer will last six months. Sprayer should be used with Spectracide® Professional Home Pest Control only.
