ACCEPTED
MAR - 9 1989

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 100-477

Home Pest Control

Ready to use in and around the home.
No unpleasant odor.
EPA Reg. No. 100-477

Active Ingredient:
Diazinon: O, O-Diethyl O-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate 0.50%
Inert Ingredients*: 99.50%
Total: 100.00%

Contains diazinon and *aromatic petroleum derivative solvent

KEEP OUT OF REACH OF CHILDREN.

CAUTION
See back panel for additional precautionary statements.

Kills:
Roaches
Ants
Crickets
Brown dog ticks
Spiders
Flies
Sowbugs
Mosquitoes
Wasps
other insects... as specified in label directions

1/2 Gallon

D-z-n® Home Pest Control

Ready to use indoors

Controls: Cockroaches (waterbugs), ants, silverfish, brown dog ticks, spiders, crickets, earwigs, sowbugs, flies, mosquitoes, flying moths, wasps, and other insects as specified in label directions.

Areas

Under kitchen sinks, refrigerators, and stoves; in cabinets, pantries, basements, and storage areas; on baseboards and other areas where insects hide or walk.

No unpleasant odor

Spray into cracks, crevices and other surface areas, as specified in label directions.

Ready to use outdoors

Garbage can areas.

Around house foundations.

Application

Hold can upright and lightly spray infested surfaces until wet. Avoid excessive wetting of asphalt tile, rubber, vinyl, plastic, or unfinished materials. Do not apply directly to carpets or floor coverings because damage may occur.

Do not use as a space spray. Do not spray on pets or desirable plants. Remove pets from area and cover fish bowls before spraying.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Indoors*

Cockroaches (Waterbugs), Ants, Firebrats, Silverfish, Sowbugs (Pillbugs), Springtails, Spiders, Crickets, Earwigs: Spray until wet, surfaces behind and beneath cabinets, refrigerators, sinks, stoves, ant trails, and other localized areas infested with insects. Spray window and door frames where ants enter. Treat inaccessible areas, voids around water pipes, cracks, and crevices along baseboard moldings. Repeat as necessary.

Carpet beetles: Make localized application to areas of the floor and baseboards. Spray directly into cracks and under nonrubber backed carpets where insects may be found. Treat crevices, cracks, and infested areas of shelving in closets. Repeat as necessary. **DO NOT apply directly to carpets or floor coverings because damage may occur.**

Brown dog ticks: Spray infested areas around baseboards, window and door frames, wall cracks, and sleeping quarters of pets. Repeat as necessary. Fresh bedding should be placed in animal quarters after treatment. Do not treat animals. **DO NOT apply directly to carpets or floor coverings because damage may occur.**

Spiders: Apply spray around windows, doors, and along baseboards. Make spot applications to other areas over which these pests may crawl.

Surfaces behind and beneath cabinets: Roaches, ants, silverfish — as a supplement to good housekeeping, spray surfaces behind and beneath cabinets where insects tend to hide. Spray until wet. Remove all food before spraying. Infested food packages should be destroyed.

*Do not use in edible products area of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

Outdoors

Flies, Mosquitoes, Wasps, Flying moths: For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter.

Treat dark corners and localized resting areas, under eaves, on porches, around patios, and garages. Repeat as necessary. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects alight or congregate.

Chiggers, Ants, Brown dog ticks, Clover mites: For treatment of localized infestations of insects in outdoor areas where there is no vegetation to be used for food or feed, spray infested areas. Do not apply to lawns or other desirable plants. For ants, wet hills and runways. Repeat as necessary.

Porches, Patios, Garages, and other areas around the house where insects hide and congregate: To help keep flies, mosquitoes, wasps, and flying moths from entering the house, treat outdoor areas where these insects congregate. This treatment can be an effective addition to total pest control.

Storage and Disposal

Do not reuse empty container. Wrap container and put in trash collection.

Precautionary Statements

Hazards to Humans and Domestic Animals

CAUTION

Harmful if swallowed, inhaled or absorbed through skin. Avoid inhalation and skin contact; wash thoroughly after using and before eating or smoking. Avoid contamination of feed and foodstuffs. Do not use on household pets or humans. Remove pets from area and cover fish bowls before spraying. Do not allow children in treated areas until surfaces have dried.

Statement of Practical Treatment

If **swallowed**, call a physician immediately. **DO NOT INDUCE VOMITING UNLESS NO OTHER TREATMENT IS AVAILABLE.** Vomiting may cause aspiration pneumonia. If it is necessary to induce vomiting, give victim one or two glasses of water and insert finger in back of throat. Do not induce vomiting or give anything by mouth if person is unconscious or convulsing.

If **inhaled**, remove victim to fresh air and apply artificial respiration if indicated.

If on **skin**, wash promptly with soap and water. Rinse thoroughly.

If in **eyes**, flush with plenty of water and call a physician immediately.

Note to Physician: This product is an organophosphate insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered, but only in conjunction with atropine. This product also contains aromatic petroleum derivative solvent which may present an aspiration hazard. Gastric lavage may be indicated if product was taken internally.

Environmental Hazards

This product is toxic to fish, birds and other wildlife. Birds feeding in treated areas may be killed. Keep out of lakes, streams, or ponds. Do not apply when weather conditions favor drift from treated areas. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Physical or Chemical Hazards

Do not use, pour, spill, or store near heat or open flame
