<b>Active Ingredients:</b>	
O,O-diethyl O-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate	0.500%
Pyrethrins	0.052%
Technical piperonyl butoxide (equivalent to 0.209% [butylcarbitol] [6-propylpiperonyl] ether and 0.052% other related compounds)	0.261%
Petroleum distillate	68.617%
<b>Inert Ingredients:</b>	30.57%
<b>Total:</b>	100.00%

Contains DZN<sup>®</sup>

2-way nozzle—spray or stream—  
For use in and around the home.  
No unpleasant odor.

**wigs:** Spray until wet, surfaces behind and beneath cabinets, refrigerators, sinks, stoves, ant trails, and other localized areas infested with insects. Spray window and door frames where ants enter. Treat inaccessible areas, voids around water pipes, cracks, and crevices along baseboard moldings. Repeat as necessary.

**Carpet beetles:** Make localized application to areas of the floor and baseboards. Spray directly into cracks and under carpets where insects may be found. Treat crevices, cracks, and infested areas of shelving in closets. Repeat as necessary.

**Brown dog ticks:** Spray infested areas around baseboards, windows and door frames, wall cracks, sleeping quarters of pets, and localized areas of floors and floor coverings. Repeat as necessary. Fresh bedding should be placed in animal quarters after treatment. Do not treat animals.

**Spiders:** Apply spray around windows, doors, and along baseboards. Make spot applications to other areas over which these pests may crawl.

**Surfaces behind and beneath cabinets:** Roaches, ants, silverfish—as a supplement to good housekeeping, spray surfaces behind and beneath cabinets where insects tend to hide. Spray until wet. Remove all food before spraying. Infested food packages should be destroyed.

\*Do not use in edible products areas of food processing plants, restaurants or other areas where food is commercially prepared or prepared. Do not use in serving areas where food is exposed.

or localized in outdoor areas. Spray vegetation to spray infested and runways.
