CIBA-GEIGY and the Seller offer this product on the Basis and under conditions, subject to the foregoing Conditions Of Sale And Warranty which may be obtained by agreement in writing signed by a duly authorized representative of CIBA-GEIGY.

General Information

Diazinon Plus Fruit Tree Oil is a prepackaged product containing Diazinon plus a carrier type oil. This product is intended for use as a dormant spray on deciduous tree fruit and nut crops in the Western States. When applied as directed, Diazinon Plus Fruit Tree Oil is an effective treatment against most of the overwintering scale, mite and aphid eggs. Make a dormant spray as soon as possible but after there has been enough rain to thoroughly wet the ground to sink the trees to the banks and apply most Max-Diazinon Plus Fruit Tree Oil with water at the rates given below and apply as a dormant spray on the trees. When a dormant spray is applied, use a concentration of Diazinon Plus Fruit Tree Oil of 1.0% in the spray mixture. The weight of Diazinon Plus Fruit Tree Oil per acre will be 1.00 pounds per acre per 100 gallons of water per acre.

Directions For Use

Almonds

Apply 1.00 pounds per acre per 100 gallons of water per acre.

Apricots
