### WARNING:

#### Precautionary Statements

**Hazard to humans**  
Irritant to eyes, nose, throat, and skin. May cause dizziness and headache. Avoid contact with eyes, nose, throat, and skin. Wash thoroughly with soap and water after use. Do not eat, drink, or smoke while using this product. Do not use in enclosed areas. Do not use in areas where food is handled or stored. Do not use in areas where children or pets are present. Do not use in areas where livestock are present. Do not use in areas where birds are present. Do not use in areas where bees are present. Do not use in areas where beneficial insects are present. Do not use in areas where aquatic life is present. Do not use in areas where wildlife is present. Do not use in areas where crops are present. Do not use in areas where ornamentals are present. Do not use in areas where lawns are present. Do not use in areas where gardens are present. Do not use in areas where trees and shrubs are present. Do not use in areas where vines and climbing plants are present. Do not use in areas where flowers are present. Do not use in areas where fruits and vegetables are present. Do not use in areas where nuts and seeds are present. Do not use in areas where grains and cereals are present. Do not use in areas where legumes are present. Do not use in areas where pulses are present. Do not use in areas where oilseeds are present. Do not use in areas where forage crops are present. Do not use in areas where cover crops are present. Do not use in areas where green manures are present. Do not use in areas where soil amendments are present. Do not use in areas where soil conditioners are present. Do not use in areas where soil stabilizers are present. Do not use in areas where soil moisture retainers are present. Do not use in areas where soil pH adjusters are present. Do not use in areas where soil nutrient sources are present. Do not use in areas where soil nutrient enhancers are present. Do not use in areas where soil nutrient inhibitors are present. Do not use in areas where soil nutrient chelators are present. Do not use in areas where soil nutrient solubilizers are present. Do not use in areas where soil nutrient immobilizers are present. Do not use in areas where soil nutrient precipitators are present. Do not use in areas where soil nutrient volatilizers are present. Do not use in areas where soil nutrient fixators are present. Do not use in areas where soil nutrient scavengers are present. Do not use in areas where soil nutrient sequestrants are present. Do not use in areas where soil nutrient buffers are present. Do not use in areas where soil nutrient stabilizers are present. Do not use in areas where soil nutrient protectants are present. Do not use in areas where soil nutrient enhancers are present. Do not use in areas where soil nutrient inhibitors are present. Do not use in areas where soil nutrient chelators are present. Do not use in areas where soil nutrient solubilizers are present. Do not use in areas where soil nutrient immobilizers are present. Do not use in areas where soil nutrient precipitators are present. Do not use in areas where soil nutrient volatilizers are present. Do not use in areas where soil nutrient fixators are present. Do not use in areas where soil nutrient scavengers are present. Do not use in areas where soil nutrient sequestrants are present. Do not use in areas where soil nutrient buffers are present. Do not use in areas where soil nutrient stabilizers are present. Do not use in areas where soil nutrient protectants are present.
