

# CIBA-GEIGY Diazinon® PE

## For Use by Pest Control Operators Only

For control of cockroaches, ants, silverfish, carpet beetles, spiders, and scorpions

### Active Ingredients:

0,0-diethyl 0-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate .....	20.0%
Pyrethrins .....	2.0%
Piperonyl butoxide, technical* .....	10.0%
Aromatic petroleum derivative solvent .....	54.0%
Inert Ingredients:	14.0%

Total: 100.0%

\*Equivalent to 3.0% (Butylcarbityl) (6-propylpiperonyl) ether and 2.0% related compounds

## WARNING:

### Keep Out of Reach of Children.

May be fatal if swallowed. May be absorbed through skin. Do not breathe spray mist. Do not get in eyes, on skin, or on clothing. Wash thoroughly after handling. Avoid contamination of food and feed.

Do not reuse empty container. Destroy by perforating or crushing and burying in a safe place.

Do not use, pour, spill, or store near heat or open flame.

EPA Reg. No. 100-571

### DIRECTIONS FOR USE AND CONDITIONS OF SALE AND WARRANTY

**IMPORTANT:** Read the entire **Directions for Use** and the **Conditions of Sale and Warranty** before using this product.

#### Conditions of Sale and Warranty

The **Directions for Use** of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness, or other unintended conse-

quences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application all of which are beyond the control of CIBA-GEIGY or the Seller. All such risks shall be assumed by the Buyer.

CIBA-GEIGY warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the **Directions for Use** subject to the inherent risks referred to above. **CIBA-GEIGY makes no other express or implied warranty of Fitness or Merchantability or any other express or implied warranty. In no case shall CIBA-GEIGY or the Seller be liable for consequential, special, or indirect damages resulting from the use or handling of this product. CIBA-GEIGY and the Seller offer this product, and the Buyer and user accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of CIBA-GEIGY.**

#### Directions for Use

Mix 6½ oz. of Diazinon PE with water to yield 1 gal. of finished solution containing 1% Diazinon, 0.1% Pyrethrins, and 0.5% Piperonyl Butoxide Tech. For half strength use in maintenance work, dilute 3¼ oz. per gal. of water. Mix enough material for use on job. Do not store finished solution overnight.

#### Cockroaches (Waterbugs), Ants, Silverfish

Make spot applications of ½% Diazinon as a coarse spray or apply with a paint brush to baseboards, areas around water pipes, cracks and crevices, surfaces behind and beneath cabinets, refrigerators, sinks, stoves, and similar areas where these insects hide.

For heavy cockroach infestations, make the first application at a strength of 1% Diazinon, followed by monthly applications of ½% Diazinon.

#### Carpet beetles

Apply a ½% Diazinon spray in spot applications along baseboards and edges of carpeting, under carpeting and rugs and furniture, in closets and on shelving, and wherever these insects are seen or suspected.

#### Spiders and Scorpions

Apply a ½% Diazinon spray around windows, doors, and along baseboards. Make spot applications to other areas over which these pests may crawl.

#### Pantry Pests—Exposed Stages (Sawtoothed grain beetle, Flour beetle, Rice weevil, Cigarette beetle, Drugstore beetle, Indian meal moth)

Apply a ½% spray to shelves and cupboards where food containers suspected of being infested are stored. Remove all food and shelving paper before spraying. Do not replace the food packages until spray has dried. Cover shelves with shelving paper. This

is supplemental to good housekeeping, since it will have no effect on insects in sealed food packages. Infested food packages should be destroyed.

#### Brown dog ticks in Buildings

Make thorough application of a ½% Diazinon spray to infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of household pets, and localized areas of floors and floor coverings. Fresh bedding should be placed in animal quarters following treatment. Do not treat animals with this formulation.

#### Applications Within Food Handling Establishments

Places other than private residences, in which exposed food is held, processed, prepared, and/or served.

**Food Areas**—Includes areas for receiving, serving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage, and enclosed processing systems (mills, dairies, edible oils, syrups).

Apply ½-1% Diazinon PE in small amounts into cracks and crevices, using equipment capable of delivering a pin stream of insecticide in points between different elements of construction, between equipment bases and the floor, wall voids, or hollow equipment legs where cockroaches, ants, spiders, and silverfish hide. Aids in the control of pantry pests (exposed stages of sawtoothed grain beetle, flour beetle, rice weevil, cigarette beetle, drugstore beetle, and Indian meal moth) which come in contact with treated surfaces. Do not use this product in conduits, motor housings, and electrical switch boxes.

Use the ½% dilution for light infestations and the 1% dilution for heavy infestations. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

**APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE, IS NOT PERMITTED.**

**Non-Food Areas**—Includes garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and storage (after canning or bottling).

Apply ½-1% Diazinon PE as a spot treatment to baseboard areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets, and similar areas where insects hide or through which they may enter.
