no use este producto hasta que la etiqueta  
haya sido explicado ampliamente.

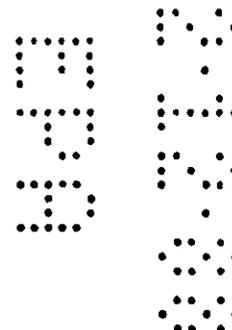

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner  
inconsistent with its labeling.

General Information

Observe all precautions and limitations on the labels of each  
product used in tank mixtures.

Dual 8E is a selective herbicide recommended as a preplant  
surface-applied, preplant incorporated, or preemergence treat-  
ment in water or fluid fertilizer for control of most annual  
grasses and certain broadleaf weeds in nonbearing citrus, corn,  
cotton, nonbearing grapes, peanuts, pod crops, potatoes,  
safflowers, grain or forage sorghum, soybeans, stone fruits,  
tree nuts, and woody ornamentals.

Rotational Crops: (1) If crop treated with Dual 8E alone is lost, any crop on this label may be replanted immediately. Do not make a second broadcast application of Dual 8E. If the original application was banded and the second crop is planted in the untreated row middles, a second banded treatment may be applied. (2) Barley, oats, rye, or wheat may be planted 4 1/2 months following treatment; alfalfa may be planted 4 months following application. (3) Any crop on this label in addition to root crops, barley, buckwheat, milo, oats, rice, rye, or wheat may be planted in the spring following treatment. Clovers may be seeded 9 months following application. Do not graze or feed forage or fodder from cotton to livestock. All other rotational crops may be planted 18 months after application. (3) Following a lay-by treatment or multiple treatments applied the previous season, any crop on this label may be planted in the spring. All other rotational crops may be planted 18 months after a lay-by application.

Important Notes: To avoid injury to rotational alfalfa or clover, (1) Do not apply more than 3 lbs. ai of metolachlor (3 pts. Dual 8E) preemergence (including preplant-surface, preplant-incorporated, postplant incorporated, etc.). (2) Do not make lay-by or other postemergent applications of Dual 8E. (3) For Rotational Crops restrictions for Dual 8E used in tank mixtures, refer to the statements/restrictions above for Dual 8E and to the respective product labels of any mixing partner(s) for additional statements/restrictions.

Follow all applicable directions, restrictions, and precautions on the EPA-registered label.

This label must be in the possession of the user at the time of application.
