D.

### Storage and Disposal

Keep from freezing. Store above 32 F. Do not contaminate water, food, or feed by storage or disposal. Do not reuse empty container. Wrap container and put in trash collection.

### Precautionary Statements

Hazards to Humans and Domestic Animals  
**CAUTION**

Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing vapor and contact with eyes, skin and clothing. Keep children and pets off treated areas until the areas are dry.

#### Statement of Practical Treatment

If swallowed, call a physician or poison control center immediately. Give milk or water. Do not induce vomiting unless no other treatment is available, and then preferably under medical supervision. If it is necessary to induce vomiting, give victim one or two glasses of water and insert finger in back of throat. Repeat until vomiting is clear. Do not induce vomiting or give anything by mouth to an unconscious person.

If inhaled, remove victim to fresh air and apply artificial respiration if indicated.

If on skin, wash promptly with soap and water. Rinse thoroughly.

If in eyes, rinse eyes with plenty of water. Get medical attention if irritation develops or persists.

**Note to Physician:** This product contains a cholinesterase inhibitor. Atropine sulfate and 2-PAM are antidotal only if signs of cholinesterase inhibition are present. Gastric lavage is indicated.

#### Environmental Hazards

This product is toxic to fish, birds and other wildlife. Birds feeding in treated areas may be killed. Do not apply directly to water. Do not apply when weather conditions favor drift from treated areas. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

- Kills 18 different insects
- Residual killing power
- Ready to use indoors and outdoors
- Contains diazinon in a water based formula
- Adjustable spray applicator
- No unpleasant odor
- No strong solvent odor

### Insects

**Controls:** Cockroaches (waterbugs), ants, silverfish, brown dog ticks, fleas, spiders, crickets, earwigs, sowbugs, flies, mosquitoes, flying moths, wasps, and other insects as specified in label directions.

### Use Areas

**Indoors:** Under kitchen sinks, refrigerators, and stoves, behind and beneath cabinets, in pantries, basements, and storage areas; on baseboards and other areas where insects hide or crawl.

**Outdoors:** Garbage can areas, around house foundations, porches, patios, garages, crawl spaces and other areas where insects hide.

**No unpleasant odor. No strong solvent odor.**

Spray into cracks, crevices and other localized areas, as specified in label directions.

### Application

Remove pets and birds, and cover fish bowls before spraying. Hold container upright and lightly spray infested surfaces until wet. Avoid excessive wetting of floor coverings, rugs, or unfinished materials as damage may occur. Do not apply directly to upholstery. A slight film will appear upon drying, leaving residual killing power.

Do not use as an overall surface spray. Do not spray on pets or desirable plants. Apply only as directed.

#### Directions for Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling

#### Indoors\*

**Cockroaches (Waterbugs), Ants, Firebrats, Silverfish, Sowbugs (Pillbugs), Springtails, Spiders, Crickets, Earwigs:** Spray until wet, surfaces behind and beneath cabinets, refrigerators, sinks, stoves, ant trails, and other localized areas infested with insects. Spray window and door frames where ants enter. Treat inaccessible areas such as voids around water pipes, cracks, and crevices along baseboard moldings. Repeat as necessary.

**Carpet beetles:** Make localized application to areas of the floor and baseboards. Spray directly into cracks and under carpets where insects may be found. Treat crevices, cracks, and infested areas of shelving in closets. Repeat as necessary.

**Brown dog ticks, Fleas\*\*:** Spray infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of pets, and localized areas of floors and floor coverings. Repeat as necessary. Fresh bedding should be placed in animal quarters after treatment. **Avoid excessive wetting of floor coverings, rugs or unfinished materials, as damage may occur. Do not apply directly to upholstery. Do not treat animals with this product or use as an overall surface spray.**

**Spiders:** Apply spray around windows, doors, and along baseboards. Make spot applications to other areas over which these pests may crawl.

**Surfaces behind and beneath cabinets:** Roaches, ants, silverfish — as a supplement to good housekeeping, spray surfaces behind and beneath cabinets where insects tend to hide. Spray until wet. Do not spray inside cabinets where food is stored.

\*Do not use in edible products area of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

\*\* Controls adult fleas on areas treated.

#### Outdoors

**Flies, Mosquitoes, Wasps, Flying moths:** For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter

Treat dark corners and localized resting areas, under eaves, on porches, around patios, and garages. Repeat as necessary. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects alight.

**Chiggers, Ants, Brown dog ticks, Fleas, Clover mites:** For treatment of localized infestations of insects in outdoor areas where there is no vegetation to be used for food or feed, spray infested areas. For ants, wet hills and runways. Repeat as necessary. Do not spray desirable plants.

**Porches, Patios, Garages, and other areas around the house where insects hide or gather:** To help keep flies, mosquitoes, wasps, and flying moths from entering the house, treat outdoor areas where these insects hide or gather. This treatment can be an effective addition to total pest control.
