For use in and around the home

For control of

Cockroaches	Fleas	Mosquitoes
Ants, Silverfish	Spiders	Sowbugs
Crickets	Flies	Wasps
Brown Dog Ticks	Earwigs	

and other insects as specified in label directions.

Active Ingredients:

Diazinon: O,O-Diethyl O-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate	1.00%
<u>Inert Ingredients:</u>	<u>99.00%</u>
Total:	100.00%

Residual Killing Power Formula

No unpleasant odor. No strong solvent odor.

KEEP OUT OF REACH OF CHILDREN.

CAUTION

See additional precautionary statements on back panel.

Net Contents
— Gallon

- Kills 18 different insects
- Residual killing power
- Ready to use indoors and outdoors
- Contains diazinon in a water based formula
- Adjustable spray applicator
- No unpleasant odor
- No strong solvent odor

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

General Information

D·z·n Home Pest Control-XP is a ready-to-use water-based product in a ready-to-use container. No mixing is required. Hold the container upright and lightly spray surfaces until wet according to the directions for use. A slight film will appear upon drying, leaving residual killing power. This product may be used inside and outside the home for control of the pests specified on this label.

INDOOR USE

Controls:

Cockroaches (waterbugs), ants, firebrats, silverfish, brown dog ticks, fleas, springtails, spiders, crickets, earwigs, sowbugs (pillbugs), carpet beetles.

Precautions: 1) Do not use this product indoors as an overall surface spray or as a space spray. 2) Take care not to introduce this product into the air during application; use only in well-ventilated areas. 3) Do not apply where children are likely to frequently contact treated surfaces. 4) Remove or cover fish bowls and remove pets before application. 5) Do not treat pets or plants with this product. 6) Do not allow children or pets in treated areas until spray has dried. 7) If clothing is sprayed during application, remove clothing immediately after spraying and launder before wearing again. 8) Avoid excessive wetting of carpets or floor coverings and unfinished materials. 9) Care should be taken to avoid spotting of walls, wall coverings, and fabrics. 10) Do not apply directly to upholstery, furniture, leather, draperies, or stained surfaces because damage may occur. 11) Do not apply to areas, surfaces, or utensils which will contact food or feed. 12) Exposed food should be covered or removed during application. 13) All food processing surfaces and utensils should be covered during application or thoroughly washed with soap and water before use. 14) Do not use in edible food areas of food processing plants, restaurants, or other places where food or feed is commercially prepared or processed. 14) Do not use in serving areas while food is exposed.

Application:

Cockroaches (Waterbugs), Ants, Firebrats, Silverfish, Sowbugs (Pillbugs), Springtails, Spiders, Crickets, Earwigs: Spray until wet, surfaces behind and beneath cabinets, refrigerators, sinks, stoves, ant trails, and other localized areas infested with insects. Spray window and door frames where ants enter. Treat difficult to service areas such as voids around water pipes and cracks and crevices along baseboard moldings. Repeat as necessary.

Carpet beetles: Make localized application to areas of the floor and baseboards. Spray directly into cracks and under carpets where insects may be found. Treat crevices, cracks, and infested areas of shelving in closets. Repeat as necessary.

Brown dog ticks, Fleas*: Spray infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of pets, and localized areas of floors and floor coverings. Repeat as necessary. Fresh bedding should be placed in animal quarters after treatment. Do not treat animals with this product.

*Controls adult fleas on areas treated.

Spiders: Apply spray around windows, doors, and along baseboards. Make spot applications to other areas over which these pests may crawl.

Surfaces behind and beneath cabinets: Roaches, ants, silverfish - as a supplement to good housekeeping, spray surfaces behind and beneath cabinets where insects tend to hide. Spray until wet. Do not spray inside cabinets where food is stored.

OUTDOOR USE

Controls:

Flies, Mosquitoes, Wasps, Flying Moths, Chiggers, Ants, Brown Dog Ticks, Fleas, Clover Mites

Precautions: 1) Spray with wind to your back. If clothing becomes wet from spray during use, remove clothing after spraying, wash affected body areas thoroughly with soap and water, and launder clothing before wearing again. 2) Do not allow children or pets to contact treated areas until spray has dried. 3) Do not apply to lawns or other desirable plants.

12.5.17

Application:

Flies, Mosquitoes, Wasps, Flying moths: For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter.

Treat dark corners and localized resting areas, under eaves, on porches, around patios, and garages. Repeat as necessary. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects alight.

Chiggers, Ants, Brown dog ticks, Fleas, Clover mites: For treatment of localized infestations of insects in outdoor areas where there is no vegetation to be used for food or feed, spray infested areas. For ants, wet hills and runways. Repeat as necessary.

Porches, Patios, Garages, and other areas around the house where insects hide or gather: To help keep flies, mosquitoes, wasps, and flying moths from entering the house, treat outdoor areas where these insects hide or gather. This treatment can be an effective addition to total pest control.

Storage and Disposal

Storage:

Keep from freezing. Store above 32°F. Store in an area inaccessible to children and pets.

Disposal:

Do not reuse empty container. Rinse thoroughly then wrap container and put in trash collection.

Precautionary Statements

Hazards to Humans and Domestic Animals

CAUTION

Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing vapor and contact with eyes, skin and clothing. Wash thoroughly after handling and before eating or smoking. May cause contact sensitization following repeated contact with skin of susceptible individuals. Avoid repeated contact with skin. If sensitization reactions result, consult a physician. Avoid contamination of feed and foodstuffs. Do not use on household pets or humans. Remove pets from area and cover fish bowls before spraying. Do not allow children in treated areas until surfaces have dried.

Continued ...

Statement of Practical Treatment

If swallowed, call a physician or poison control center immediately. Give milk or water. Do not induce vomiting unless no other treatment is available, and then preferably under medical supervision. If it is necessary to induce vomiting, give victim one or two glasses of water and insert finger in back of throat. Do not induce vomiting or give anything by mouth if person is unconscious or convulsing.

If inhaled, remove victim to fresh air and apply artificial respiration if indicated.

If on skin, wash promptly with soap and water. Rinse thoroughly.

If in eyes, rinse eyes with plenty of water. Get medical attention if irritation develops or persists.

Note to Physician: This product is an organophosphate insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal and may be administered but only in conjunction with atropine. The solvent present in this product may present an aspiration hazard. Gastric lavage may be indicated if product was taken internally.

Environmental Hazards

This product is highly toxic to birds, fish, and other wildlife. Birds, especially waterfowl feeding or drinking on treated areas may be killed. Keep out of lakes, streams, ponds, tidal marshes and estuaries. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes) when weather conditions favor drift from treated areas. Runoff may be hazardous to aquatic organisms in neighboring areas. Shrimp and crab may be killed at application rates recommended on this label. Do not apply where fish, shrimp, crab and other aquatic life are important resources. Do not contaminate water by disposal. Do not apply this product where fish, shrimp, crab or other aquatic life are important resources. Do not contaminate water by disposal.

This pesticide is highly toxic to bees exposed to direct treatment or to residues on blooming plants where they feed. Do not allow this pesticide to drift to blooming weeds, if bees are visiting the treatment area. Do not apply this product to or allow it to drift to food crops or any desirable vegetation at any time.
