

# Aquazine

algicide

# 90WDG

For control of algae and  
certain weeds in ponds

Active Ingredient:  
Simazine: 2-  
chloro-4, 6-bis  
(ethylamino)-  
s-triazine 90%  
Inert Ingredients: 10%  
Total: 100%

EPA Reg. No. 100-605

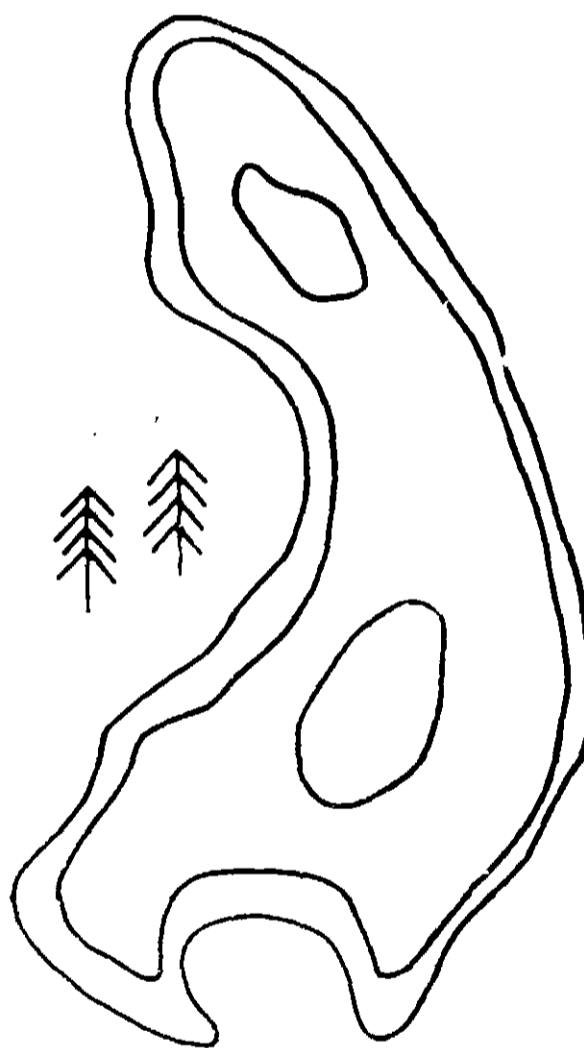

Keep Out of Reach  
of Children.

## Caution

See additional  
precautionary  
statements  
on panel at left.

See directions for  
use on panel at right.

**Five Pounds**  
Net Weight

CIBA-GEIGY

- 1 Broad spectrum algae control
- 2 Usually season long control.
- 3 May be used in ponds containing fish
- 4 No special equipment needed when applied to water

**DIRECTIONS FOR USE AND CONDITIONS OF SALE AND WARRANTY**

**IMPORTANT:** Read the entire Directions for Use and Conditions of Sale And Warranty before use of this product.

**Conditions of Sale and Warranty**

The Directions for Use of this product are the property of experts trained to do the field tests. The directions are developed for use and should be followed carefully. However, it is impossible to eliminate all risks inherent associated with use of this product. Ineffective control or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application. All which are beyond the control of CIBA-GEIGY or the Seller. All such risks shall be assumed by the Buyer.

CIBA-GEIGY warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, but not for the inherent risks referred to above. **CIBA-GEIGY makes no other express or implied warranty of Fitness or Merchantability or any other express or implied warranty. In no case shall CIBA-GEIGY or the Seller be liable for consequential, special, or indirect damages resulting from the use or handling of this product.**

CIBA-GEIGY warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, but not for the inherent risks referred to above.

**Directions for Use**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**General Information**

Aquazone Aquatic Weed Control is a broad spectrum herbicide for use in ponds, lakes, reservoirs, and other bodies of water. It is effective against a wide range of aquatic weeds, including both floating and submerged species. The product is easy to apply and does not require special equipment. It is safe for use in ponds containing fish and other aquatic life.

Aquazone Aquatic Weed Control is a broad spectrum herbicide for use in ponds, lakes, reservoirs, and other bodies of water. It is effective against a wide range of aquatic weeds, including both floating and submerged species. The product is easy to apply and does not require special equipment. It is safe for use in ponds containing fish and other aquatic life.

**Application to Water**

Aquazone Aquatic Weed Control is applied to water in the form of a suspension. The product is mixed with water in a bucket and then poured into the pond. The suspension is stirred thoroughly before use.

The suspension is applied to the water in the pond. The product is effective against a wide range of aquatic weeds, including both floating and submerged species. The product is easy to apply and does not require special equipment. It is safe for use in ponds containing fish and other aquatic life.

The suspension is applied to the water in the pond. The product is effective against a wide range of aquatic weeds, including both floating and submerged species. The product is easy to apply and does not require special equipment. It is safe for use in ponds containing fish and other aquatic life.

The suspension is applied to the water in the pond. The product is effective against a wide range of aquatic weeds, including both floating and submerged species. The product is easy to apply and does not require special equipment. It is safe for use in ponds containing fish and other aquatic life.

**How to Apply:** After determining the amount of Aquazone Aquatic Weed Control to be applied, mix the product with water in a bucket. The suspension is then poured into the pond. The product is effective against a wide range of aquatic weeds, including both floating and submerged species. The product is easy to apply and does not require special equipment. It is safe for use in ponds containing fish and other aquatic life.

**Rates of Application**

The rate of application of Aquazone Aquatic Weed Control depends on the type and density of the weeds to be controlled. For floating weeds, use 3-6 lbs. per acre foot of water. For submerged weeds, use 4-6 lbs. per acre foot of water.

**Algae Control**

Aquazone Aquatic Weed Control is effective against a wide range of algae species. The product is applied to the water in the pond and is effective against both green and blue-green algae. The product is easy to apply and does not require special equipment. It is safe for use in ponds containing fish and other aquatic life.

Aquazone Aquatic Weed Control is effective against a wide range of aquatic weeds, including both floating and submerged species. The product is easy to apply and does not require special equipment. It is safe for use in ponds containing fish and other aquatic life.

Aquazone Aquatic Weed Control is effective against a wide range of aquatic weeds, including both floating and submerged species. The product is easy to apply and does not require special equipment. It is safe for use in ponds containing fish and other aquatic life.

**Weed Control:** Aquazone Aquatic Weed Control is effective against a wide range of aquatic weeds, including both floating and submerged species. The product is easy to apply and does not require special equipment. It is safe for use in ponds containing fish and other aquatic life.

Aquazone Aquatic Weed Control is effective against a wide range of aquatic weeds, including both floating and submerged species. The product is easy to apply and does not require special equipment. It is safe for use in ponds containing fish and other aquatic life.

Aquazone Aquatic Weed Control is effective against a wide range of aquatic weeds, including both floating and submerged species. The product is easy to apply and does not require special equipment. It is safe for use in ponds containing fish and other aquatic life.

**Application to Bottoms of Fish Hatchery, Fish Rearing, and Other Ponds with Draining Capabilities**

Aquazone Aquatic Weed Control is effective against a wide range of aquatic weeds, including both floating and submerged species. The product is easy to apply and does not require special equipment. It is safe for use in ponds containing fish and other aquatic life.

### Mixing Instructions

1. Add 100 lbs of water to a 500 gallon tank.  
2. Add 10 lbs of product to the tank.  
3. Mix thoroughly for 10 minutes.  
4. Repeat steps 1-3 until the tank is full.

### Spray Equipment

Use a pump sprayer with a nozzle that can be adjusted to a fine mist. Do not use a backpack sprayer.

Use a pump sprayer with a nozzle that can be adjusted to a fine mist. Do not use a backpack sprayer.

Wash all spray equipment with clean water immediately after use. Do not use equipment until it is completely clean.

**Algae Control:** Apply 1/2 lb per 1000 sq ft of water. Use a pump sprayer with a nozzle that can be adjusted to a fine mist.

**Weed Control:** Apply 1/2 lb per 1000 sq ft of water. Use a pump sprayer with a nozzle that can be adjusted to a fine mist.

Use a pump sprayer with a nozzle that can be adjusted to a fine mist. Do not use a backpack sprayer.
