

Princep 1%

Algicide

FOR INDUSTRIAL OR INSTITUTIONAL USE ONLY

For algae control in recirculating water cooling towers

Active ingredient S-mazine, 2-chloro-4,6-bis(4-methylamino)-s-triazine	
Inert ingredients	99
Total	100

EPA Reg. No. 100-588

55 Gallons

U.S. Standard Measure

Keep Out of Reach of Children.

CAUTION

Precautionary Statements

Hazards to Humans and Domestic Animals

Harmful if inhaled or absorbed through the skin. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing. In case of contact, immediately flush eyes with plenty of water. Get medical attention if eye irritation persists. Wash clothing with soap and water.

Environmental Hazards

Do not use in systems where treated effluent is discharged to surface water. Do not use in systems where effluent is discharged to surface water treatment facilities. Do not use in systems where effluent is discharged to surface water treatment facilities. Do not use in systems where effluent is discharged to surface water treatment facilities.

DIRECTIONS FOR USE AND CONDITIONS OF SALE AND WARRANTY

IMPORTANT: Read the entire Directions for Use and the Conditions of Sale and Warranty before using this product.

The Directions for Use... CIBA-GEIGY makes no other express or implied warranty of Fitness or Merchantability or any other express or implied warranty. In no case shall CIBA-GEIGY or the Seller be liable for consequential, special, or indirect damages resulting from the use or handling of this product. CIBA-GEIGY and the Seller offer this product and the Buyer and user accept it subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of CIBA-GEIGY.

Directions for Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

General Information

Heavy algae growth contributes to restricted water flow through recirculating water cooling towers, thereby impairing the efficiency of the system. Princep 1% is a fast-acting algicide and prevents the formation of algae when used according to label directions.

For best results, use Princep 1% before treatment of the cooling tower water. It is effective against all types of algae, including blue-green algae, green algae, and diatoms. It is also effective against the growth of algae on the walls and floors of the cooling tower.

Note: Do not use Princep 1% in systems where the treated effluent is discharged to surface water.

Treatment

For the treatment of cooling tower water, use the following procedure:

Initial Dose: Add 1.0 ounce of Princep 1% per 100 gallons of cooling tower water. This dose will kill the algae and prevent its regrowth for 30 days.

Subsequent Dose: Add 0.5 ounce of Princep 1% per 100 gallons of cooling tower water every 30 days to maintain the water free of algae.

Precaution: Do not allow this product to come in contact with water. Do not allow this product to come in contact with water. Do not allow this product to come in contact with water.

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal. Improper disposal of labeled pesticide, pesticide mixture, or rinse water is a violation of federal law. If these wastes cannot be used according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance on proper disposal methods.

Triple rinse container (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities.

For minor spills, leaks, etc., follow all precautions indicated on this label and clean up immediately. Take special care to avoid contamination of equipment and facilities during cleanup procedures and disposal of wastes. In the event of a major spill, fire, or other emergency, call (919)-292-7100 day or night.
