

AAtrex® 8G

Herbicide

For nonselective weed control
on industrial sites and
noncrop areas

50 Pounds
Net Weight

Active Ingredients:

Atrazine: 2-chloro-4-ethylamino-6-	
isopropylamino-s-triazine	7.6%
Related compounds	0.4%
<hr/>	<hr/>
Inert Ingredients:	92.0%
Total:	100.0%

Control No. _____

AAtrex 8G is a granular herbicide

Keep Out of Reach of Children.

ACCEPTED
 MAR 11 1986
 Under the Federal Insecticide,
 Fungicide, and Rodenticide Act,
 as amended, for the pesticide
 registered under
 EPA Reg. No. 100-660

Warning

See additional precautionary statements
on back of bag.

EPA Reg. No. 100-
EPA Est. 100-LA-1

See directions for use on back of bag.

DIRECTIONS FOR USE AND CONDITIONS OF SALE AND WARRANTY

IMPORTANT: Read the entire Directions for Use and the Conditions of Sale and Warranty before using this product.

Conditions of Sale and Warranty

The Directions for Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application all of which are beyond the control of CIBA-GEIGY or the Seller. All such risks shall be assumed by the Buyer.

CIBA-GEIGY warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use subject to the inherent risks referred to above. CIBA-GEIGY makes no other express or implied warranty of Fitness or Merchantability or any other express or implied warranty. In no case shall CIBA-GEIGY or the Seller be liable for consequential, special, or indirect damages resulting from the use or handling of this product. CIBA-GEIGY and the Seller offer this product, and the Buyer and user accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of CIBA-GEIGY.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN POOR WEED CONTROL AND/OR INJURY TO DESIRABLE PLANTS.

General Information

AAtrex 8G is a nonselective herbicide for use on noncrop areas. Apply AAtrex 8G before weeds emerge. If emerged weeds exist at time of treatment, spray a registered contact type herbicide before or soon after AAtrex 8G is applied. AAtrex 8G acts through root absorption. Therefore, moisture is required to move it into the root zone. Very dry soil conditions and lack of sufficient rainfall may result in poor weed control.

Following many years of continuous use of this product and chemically related products, biotypes of some of the weeds listed on this label have been reported which cannot be effectively controlled by this and related herbicides. Where this is known or suspected and weeds controlled by this product are expected to be present along with resistant biotypes, we recommend the use of this product in sequential combination with other registered herbicides which are not triazines. If only resistant biotypes are expected to be present, use a registered non-triazine herbicide. Consult with your state Agricultural Extension Service for specific recommendations.

Use only in areas where complete control of broadleaf and grass vegetation is desired, such as 1) railroad, highway, and utility rights-of-way, 2) petroleum tank farms, 3) industrial sites, 4) lumberyards, 5) around warehouses and chemical plants, and 6) along industrial fence lines. When applied to the soil, this product usually inhibits plant growth for one year or more. Do not use on land to be cropped or near adjacent desirable trees, shrubs or plants, or in greenhouses, as injury may occur. Do not allow livestock to graze treated areas.

Application Rates

Annual broadleaf and grass weeds (including barnyardgrass, cheatgrass, crabgrass, lambsquarters, foxtail, ragweed, puncturevine, and turkey mullein): Broadcast 60-125 lbs. per acre.

Hard to kill annual and many perennial broadleaf and grass weeds (including bluegrass, burdock, Canada thistle, dogfennel, orchardgrass, plantain, quackgrass, purpletop, redtop, and smooth brome): Broadcast 125-250 lbs. per acre.

Hard-to-kill biennial and perennial weeds (including bullthistle and sowthistle): Broadcast 200-500 lbs. per acre.

For small areas: 2.87 lbs. per 1,000 square feet is equivalent to 125 lbs. per acre.

Use the higher rates given above in areas with a long growing season or high rainfall. The higher rates also provide longer residual control.

Storage and Disposal

Store in a dry place. Do not contaminate water, food, or feed by storage or disposal. Pesticide wastes may be toxic. Improper disposal of unused pesticide or rinse water is a violation of federal law. If these wastes cannot be used according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance in proper disposal methods.

Completely empty bag into application equipment. Dispose of empty bag in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. Stay out of smoke from burning bags.

For minor spills, leaks, etc., follow all precautions indicated on this label and clean up immediately. Take special care to avoid contamination of equipment and facilities during cleanup procedures and disposal of wastes. In the event of a major spill, fire, or other emergency, call (919) 292-7100 day or night.

Precautionary Statements

Hazards to Humans and Domestic Animals

WARNING

Causes substantial but temporary eye injury. Harmful if absorbed through the skin, swallowed, or inhaled. Do not get in eyes or on clothing. Wear goggles or face shield. Avoid contact with skin and avoid breathing dust. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

Statement of Practical Treatment

If in eyes: Flush with plenty of water. Get medical attention if irritation persists.

If on skin: Wash with plenty of soap and water. Get medical attention.

Environmental Hazards

Do not apply directly to water or wetlands. Do not contaminate water by cleaning of equipment or disposal of wastes.
