DIRECTIONS FOR USE AND CONDITIONS OF SALE AND WARRANTY

IMPORTANT: Read the entire Directions for Use and Conditions of Sale and Warranty before using this product. If terms are not acceptable, return the unopened product container at once.

Conditions of Sale and Warranty

The Directions for Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application all of which are beyond the control of CIBA-GEIGY or the Seller. All such risks shall be assumed by the Buyer.

CIBA-GEIGY warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use subject to the inherent risks referred to above.

CIBA-GEIGY makes no other express or implied warranty of Fitness or Merchantability or any other express or implied warranty. In no case shall CIBA-GEIGY or the Seller be liable for consequential, special, or indirect damages resulting from the use or handling of this product. CIBA-GEIGY and the Seller offer this product, and the Buyer and user accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of CIBA-GEIGY.

HOW THIS PRODUCT WORKS

This product is a unique combination of a natural food-like bait and a patented Insect Growth Regulator (IGR). Fire ants seek out the bait, take it back to the mound and feed it to the queen and other fire ants. The active ingredient (IGR) breaks the reproductive cycle. Without new fire ants to forage for food, the queen and her colony begin to decline, usually in 4 to 6 weeks, depending on the size of the mound. **FOR 7-10 DAYS AFTER TREATMENT, DO NOT APPLY ANY OTHER FIRE ANT PESTICIDE. THIS IS TO ALLOW SUFFICIENT TIME FOR THE WORKER ANTS TO SEEK OUT THE BAIT AND TAKE IT BACK TO THE MOUND.**

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND ALL PRECAUTIONS ON THIS LABEL MAY RESULT IN GRASS INJURY, ADVERSE EFFECTS TO NON-TARGET ORGANISMS, OR POOR INSECT CONTROL.

Sites*

This product is for use on lawns*, turf, and non-agricultural land.

* IN CALIFORNIA, THIS PRODUCT IS CURRENTLY LIMITED TO USE ONLY ON HOME LAWNS AND IN THE LANDSCAPED AREAS AROUND THE HOME. DO NOT USE THIS PRODUCT IN CALIFORNIA ON OTHER SITES.

When to Apply

This product should be applied in early Spring, at the first sign of fire ant activity. If you live in an area of heavy fire ant infestation, you may want to make a second application 8 to 12 weeks after the initial treatment.

This product should be applied during late afternoon. Avoid application during the heat of the day or if rain is expected within 4 to 6 hours. Do not water your lawn for 24 hours after treatment. In very large mounds, some worker ants may persist for a while after treatment.

How to Apply

Single Mound Treatment: Apply 1 level tablespoon of this product per mound. When treating a single mound, uniformly distribute this product over a 3 to 4 foot area surrounding the mound. Do not contaminate kitchen utensils by use or storage.

For best results, treat as follows: Apply as a broadcast treatment at 1.0 to 1.5 lb. per acre equivalent (0.37 to 0.56 oz. per 1000 sq. ft., or 0.75 to 1.0 tablespoons per 1000 sq. ft.).

BROADCASTING THIS PRODUCT TO TREAT THE WHOLE YARD IS RECOMMENDED SINCE IT ELIMINATES SMALL, UNNOTICEABLE FIRE ANT MOUNDS.

Storage and Disposal

Storage: Store away from heat. Keep container tightly closed and keep package dry. Store in a locked cabinet away from children or pets.

Disposal: Do not reuse container. Securely wrap container in several layers of newspaper and discard in trash.

For minor spills, leaks, etc., follow all precautions indicated on this label and clean up immediately. Take special care to avoid contamination of equipment and facilities during cleanup or disposal of wastes. In the event of a major spill, fire, or other emergency, call 1-800-886-8372 day or night.

Precautionary Statements

Hazards to Humans and Domestic Animals

CAUTION

May be harmful if swallowed. Avoid breathing dust. Avoid contact with clothing, skin, or eyes. Food utensils such as spoons or measuring cups must not be used for food purposes after use in measuring pesticides.

Statement of Practical Treatment

In case of contact, flush skin or eyes with plenty of water. Get medical attention if irritation persists.

Environmental Hazards

This product is toxic to fish and aquatic invertebrates. Drift and runoff from treated areas may be hazardous to aquatic invertebrates in adjacent aquatic sites. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.
