NOTICE: Read the entire Directions for Use and Conditions of Sale and Limitation of Warfarty and Liability before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

The Directions for Use of this product should be followed carefully. It is impossible to eliminate all risks inheiently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as manner of use or application, weather or crop conditions, presence of other materials or other influencing factors in the use of the product, which are beyond the control of SYNGENTA CROP PROTECTION, Inc. or Seller. All such risks shall be assumed by Buyer and User, and Buyer and User agree to hold SYNGENTA and Seller harmless for any claims relating to such factors.

....

#### Varsity"

SYNGENTA warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, subject to the inherent risks referred to above, when used in accordance with directions under normal use conditions. This warranty does not extend to the use of the product contrary to label instructions, or under abnormal conditions or under conditions not reasonably foreseeable to or beyond the control of Seller or SYNGENTA, and Buyer and User assume the risk of any such use. SYNGENTA MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICU-LAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.

In no event shall SYNGENTA or Seller be liable for any incidental, consequential or special damages resulting from the use or handling of this product. THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF SYNGENTA AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PROD-UCT OR, AT THE ELECTION OF SYNGENTA OR SELLER, THE REPLACEMENT OF THE PRODUCT.

SYNGENTA and Seller offer this product, and Buyer and User accept it, subject to the foregoing conditions of sale and limitations of warranty and of liability, which may not be modified except by written agreement signed by a duly authorized representative of SYNGENTA.

# DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Observe all cautions and limitations on this label.

#### Where to Use

To control imported fire ants on turf, lawns and landscapes, and other noncrop areas.

#### How Varsity Works

Varsity is formulated in an oil bait that functions as an attractant to imported fire ants.

Varsity is a stomach insecticide which acts slowly to reduce fire ant colonies. An effective fire ant insecticide should be slow acting so that the bait can be passed by the workers throughout the ant colony and eventually to the queen. Varsity is toxic to fire ants; however, it is most effective against the fire ant queen and causes an immediate halt of egg production and disappearance of worker brood. The disappearance of worker ants leads to the decline and eventual elimination of the fire ant colony.

#### When to Apply

Apply when ants are actively foraging [typically when soil temperatures are greater than 60°F (15°C)] or consult your state agricultural experiment station or state extension service for optimum timing of application. In cases where reinfestation occurs or when very large mounds remain active, retreatment may be desirable after 3-4 months. Apply after dew or rainfall has dried for maximum effectiveness. For best results, do not apply if rainfall is anticipated within 4-6 hours after application.

Note: Allow 7-10 days after applying Varsity before using a contact insecticide. This allows worker ants time to distribute bait throughout the colony.

#### How to Apply

Broadcast Application: Apply Varsity uniformly on areas to be treated at a rate of 1 lb. of bait per acre. Do not exceed 1 lb. of bait per acre.

Individual Mound Treatment: For best results, use 5-7 tablespoons of Varsity per mound. Sprinkle the bait uniformly in a circle around the base of the mound, out to a distance of approximately 2-4 feet. Apply at a rate of 1 lb. of bait per acre. Do not contaminate kitchen utensils with this product.

Limitations: Do not use in pastures, rangeland, or croplands.

# STORAGE AND DISPOSAL

#### General

Do not contaminate water, food, or feed by storage or disposal. Consult federal, state, or local disposal authorities for approved alternative procedures.

#### Storage

Varsity may be an attractant to rodents and domestic animals. Store in a cool, secure, dry place. To maintain maximum effectiveness, close container tightly after each use and use within 5 months after opening.

#### **Container Disposal**

Rinse thoroughly before discarding. Securely wrap original container in several layers of hewspaper and discard in trash. Do not reuse container.

For minor spills, leaks, etc., follow all precautions indicated on this label and clean up immédiately. Take special care to avoid contamination of equipment and facilities during cleanup procedures and disposal of wastes. In the event of a major spill, fire, or other emergency, call 1-800-888-8372, day or hight.

# PRECAUTIONARY STATEMENTS

#### Hazards to Humans and Domestic Animals

#### CAUTION

Harmful if swallowed or absorbed through the skin. Avoid breathing dust. Avoid contact with eyes, skin, and clothing. Wash thoroughly after handling.

#### Statement of Practical Treatment

If swallowed: Call a physician or Poison Control Center. Give 1 or 2 glasses of water and immediately induce vomiting by gently touching back of throat with finger or administer syrup of ipecac. Do not give any-thing by mouth to an unconscious person. Get medical attention.

If on skin: Remove contaminated clothing and wash affected areas with soap and water.

If in eyes: Flush eyes with plenty of water. Call a physician if irritation persists.

# **Environmental Hazards**

This pesticide is toxic to fish and wildlife. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash water or rinsate.
