How Clinch Ant Bait Works

Clinch Ant Bait controls fire ants with 2 modes of action.

- 1) First, Clinch Ant Bait is a stomach insecticide that slowly kills ants after they ingest the bait. This slow action is important because it allows worker ants to pass Clinch Ant Bait throughout the colony and eventually to the queen.
- 2) The second mode of action directly impacts the queen; after the queen ingests Clinch Ant Bait, viable egg production ceases.

The combined effect of these two modes of action is elimination of the ant colony.

APPLICATION PROCEDURES

When to Apply

- Apply Clinch Ant Bait when ants are actively foraging (typically when soil temperatures are greater than 60°F [15°C]) or consult your state agricultural experiment station or state Agricultural Extension Service for optimum timing of application.
- Do not apply Clinch Ant Bait if foliage is wet; the bait particles may stick to the foliage and that could result in poor coverage. For maximum effectiveness apply after dew or rainfall on the soil surface has also dried.
- For best results, do not apply Clinch Ant Bait if rainfall is anticipated within 4-6 hours after application, and wait at least 48 hours before irrigating the treated area.

Note: Allow 7-10 days after applying Clinch Ant Bait before using a contact insecticide. This allows worker ants time to distribute the bait throughout the colony.

How to Apply

Broadcast Application Instructions

Amount of Clinch Ant Bait	Ground Application Equipment	Aerial Application Equipment
1 lb./Acre	<ul style="list-style-type: none"> • Apply Clinch Ant Bait using properly calibrated equipment to insure accurate dosage and uniform distribution. • Spreaders must not crush bait particles because this could result in "caking" and misapplication. • See Use Restriction 	<ul style="list-style-type: none"> • Apply aerially using either rotary or fixed-wing aircraft. • Applications must be made using properly calibrated equipment that will uniformly distribute 1 lb. of Clinch Ant Bait per acre. • See Use Restrictions
