Application for Pesticide - Section I

1. Company/Product Number 100-898	2. EPA Product Manager Thomas Harris	3. Proposed Classification <input checked="" type="checkbox"/> None <input type="checkbox"/> Restricted
4. Company/Product (Name) AGRI-MEK® 0.15EC	PM# IRB	
5. Name and Address of Applicant (Include ZIP Code) Syngenta Crop Protection, inc. P. O. Box 18300 Greensboro, NC 27419 <input type="checkbox"/> Check if this is a new address	6. Expedited Review. In accordance with FIFRA Section 3(c)(3) (b)(i), my product is similar or identical in composition and labeling to: EPA Reg. No. _____ Product Name _____	

Section - II

<input type="checkbox"/> Amendment - Explain below.	<input type="checkbox"/> Final printed labels in response to Agency letter dated _____	NOTIFICATION JUN 25 2001
<input type="checkbox"/> Resubmission in response to Agency letter dated _____	<input type="checkbox"/> "Me Too" Application.	
<input checked="" type="checkbox"/> Notification - Explain below.	<input type="checkbox"/> Other - Explain below.	

Explanation: Use additional page(s) if necessary. (For Section I and Section II.)
 This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.
 Notification of Supplemental Label for Agri-Mek® 0.15EC addition of Celeriac for the 2001 use season.

Section - III

1. Material This Product Will Be Packaged In:						2. Type of Container	
Child-Resistant Packaging <input type="checkbox"/> Yes* <input type="checkbox"/> No	Unit Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No	Water Soluble Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No	If "Yes" No. per Unit Packaging wgt. Container		If "Yes" No. per Unit Packaging wgt. container		<input type="checkbox"/> Metal <input type="checkbox"/> Plastic <input type="checkbox"/> Glass <input type="checkbox"/> Paper <input type="checkbox"/> Other (Specify) _____
*Certification must be submitted							
3. Location of Net Contents Information <input type="checkbox"/> Label <input type="checkbox"/> Container			4. Size(s) Retail Container		5. Location of Label Directions <input type="checkbox"/> On Label <input type="checkbox"/> On Labeling accompanying product		
6. Manner in Which Label is Affixed to Product			<input type="checkbox"/> Lithograph <input type="checkbox"/> Paper glued <input type="checkbox"/> Stenciled		<input type="checkbox"/> Other _____		

Section - IV

1. Contact Point (Complete items directly below for identification of individual to be contacted, if necessary, to process this application.)			
Name Carolyn Brinkley	Title Senior Regulatory Product Manager	Telephone No. (Include Area Code) 336-632-2838	
Certification I certify that the statements I have made on this form and all attachments thereto are true, accurate and complete. I acknowledge that any knowingly false or misleading statement may be punishable by fine or imprisonment or both under applicable law.			6. Date Application Received (Stamped)
2. Signature <i>Carolyn F. Brinkley</i>	3. Title Senior Regulatory Product Manager		
4. Typed Name Carolyn Brinkley	5. Date June 15, 2001

NOTIFICATION

JUN 25 2001

SUPPLEMENTAL LABEL FOR ADDITION OF CELERIAC.

AGRI-MEK® 0.15 EC MITICIDE/INSECTICIDE

EPA Reg. No. 100-898

Active Ingredient:	
Abamectin (CAS No. 65195-56-4 and No. 65195-55-3)	2.0%*
Other Ingredients:	98.0%
Total:	100.0%

*1 gal. contains 0.15 lb. abamectin

KEEP OUT OF REACH OF CHILDREN.

WARNING/AVISO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

This labeling must be in the possession of the user at the time of pesticide application.

NCP 898A-S1 0501

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water is:

- Coveralls over short-sleeved shirt and short pants
- Chemical-resistant gloves
- Chemical-resistant footwear plus socks
- Protective eyewear
- Chemical-resistant headgear for overhead exposure

Chemigation:

Do not apply this product through any type of irrigation system.

Do not apply Agri-Mek 0.15 EC by aerial application in New York State.

Agri-Mek 0.15 EC is an emulsifiable concentrate which will control certain pests on the crops listed on this label when applied according to the **Directions for Use.**

Thorough coverage is essential for good mite control.

Agri-Mek 0.15 EC has been tested for phytotoxicity and has a wide margin of safety on a variety of crops. Agri-Mek 0.15 EC has also been shown to be compatible with many commonly used pesticides, crop oils, and nutritional sprays. However, since it is not possible to test a large number of possible mixtures, the user should pre-test to assure the physical compatibility and lack of phytotoxic effect of any proposed mixtures with Agri-Mek 0.15 EC.

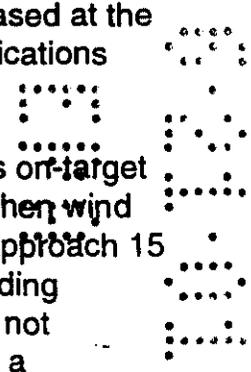

Spray Drift Precautions for Agri-Mek Use on Celeriac

Do not apply by ground within 25 ft., or by air within 150 ft. of lakes, reservoirs, rivers, permanent streams, marshes, pot holes, or natural ponds; estuaries and commercial fish farm ponds.

All aerial and ground application equipment must be properly calibrated and maintained using appropriate carriers. For aerial applications, the spray boom should be mounted on the aircraft so as to minimize drift caused by wing tip vortices. The minimum practical boom length should be used and must not exceed 75% of wing span or rotor diameter.

Use the largest droplet size consistent with good pest control. Formation of very small droplets may be minimized by appropriate nozzle selection, by orienting nozzles away from the air stream as much as possible, and by avoiding excessive spray boom pressure. Spray should be released at the lowest height consistent with pest control and flight safety. Applications more than 10 ft. above the crop canopy should be avoided.

Make aerial or ground applications when the wind velocity favors on-target product deposition (approximately 3 to 10 mph). Do not apply when wind velocity exceeds 15 mph. Avoid applications when wind gusts approach 15 mph. Risk of exposure to aquatic areas can be reduced by avoiding applications when wind direction is toward the aquatic area. Do not cultivate within 25 ft. of the aquatic area so as to allow growth of a vegetative filter strip.

Low humidity and high temperatures increase the evaporation rate of spray droplets and therefore the likelihood of increased spray drift to aquatic areas. Avoid spraying during conditions of low humidity and/or high temperature.

Do not make aerial or ground applications during temperature inversions. Inversions are characterized by stable air and increasing temperatures with height above the ground. Mist or fog may indicate the presence of an inversion in humid areas. The applicator may detect the presence of an inversion by producing smoke and observing a smoke layer near the ground surface.

Resistance Management: Because of the inherent risks of resistance development to any product, it is strongly advised that Agri-Mek 0.15 EC be used in a sound resistance management program which includes rotation with other products with different modes of action.

Celeriac (*Apium graveollens*): For control of two-spotted spider mites

Agri-Mek 0.15EC may be applied using conventional dilute or concentrate sprayers calibrated to deliver sufficient water for thorough coverage of the foliage. For best results, use in combination with a non-ionic surfactant. Apply when mites first appear and repeat as necessary to maintain control.

Celeriac

Pest	Fl. Oz./A
Two-spotted spider mites	16.0

Use Restrictions – Celeriac

- Do not apply at less than 7-day intervals.
- Do not exceed 48 fl. oz./A after transplanting.
- Do not apply within 7 days of harvest.
- Do not apply in less than 20 gals. of water per acre.
- For resistance management purposes, make no more than 2 sequential applications.

**SUBJECT: AGRI-MEK® 0.15EC
EPA Reg. No. 100-898
Label Notification:
Supplemental Labeling for the 2001 Use Season for the Addition of
Celeriac**

Dear Sir or Madam:

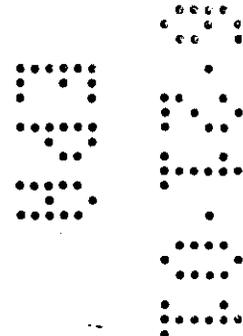

Syngenta Crop Protection, Inc. is submitting the printed version of the Agri-Mek® 0.15EC Supplemental Label for the addition of Celeriac that will be distributed for the 2001 use season. This supplemental labeling is consistent with the EPA approved label for Agri-Mek® 0.15EC accepted on May 9, 2001. This label will be registered in all states, as is the EPA stamped label.

To complete this notification, an EPA Form 8570-1 is included as well.

If you have any questions or require additional information concerning this notification of supplemental labeling, please call me at (336) 632-2838. Thank you for your assistance in gaining this much-needed use.

Sincerely,

Carolyn Brinkley
Sr. Regulatory Product Manager
