	<p align="center">NOTICE OF PESTICIDE: <u> x </u> Registration <u> — </u> Reregistration</p> <p>(under FIFRA, as amended)</p>	<p>Term of Issuance: Conditional</p>	
		<p>Name of Pesticide Product: Impasse Termite System</p>	
<p>Name and Address of Registrant (include ZIP Code): Syngenta Crop Protection, Inc. P.O. Box 18300 Greensboro, NC 27419-8300</p>			
<p>Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.</p>			
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p>			
<p>This product is <u>conditionally</u> registered in accordance with FIFRA sec. 3(c)(7)(A), provided that you:</p>			
<ol style="list-style-type: none"> 1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of you product under FIFRA section 4. 2. Continue to submit efficacy data on the IMPASSE barrier. Data must be collected for a minimum of five years and submitted to the Agency for review. You should add the 0.77% product to the field trials at all USDA-Forest Service field sites. Otherwise, please explain why the Agency should bridge down from a 0.88% to a 0.77% lambda-cyhalothrin product. 3. Make the following labeling changes listed below before you release the product for shipment: <ol style="list-style-type: none"> a. Revise the EPA Registration number to read EPA Reg. No. 100-1125. b. Revise your "FIRST AID" statements to read: "IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice." 			
<p>Signature of Approving Official: George T. LaRocca</p>			<p>Date:</p>

- c. The Agency and most states require an exterior perimeter treatment to soil surrounding a structure in order to satisfy pre-construction treatment requirements and provide structural protection from termites. This issue has not been adequately addressed on your label. Therefore, add the following paragraph that currently appears on the EUP label under the heading "Termite Protection" on page 6 of the booklet:

"To provide protection against the most common entry points of subterranean termites, it is necessary to effectively secure the perimeter of the building. When using the IMPASSE Barrier after the final grading has been done around the structure, a treatment may be applied to the perimeter of the structure using an EPA-registered approved termiticide."

Please submit two (2) copies of your final printed label for before your release the product for shipment. Please refer to the A-79 enclosure for a further description of final printed labeling. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing amended labeling constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

If you have any questions regarding this action, please contact Dr. William Sproat of my team at (703) 308-8587.

Sincerely,

George T. LaRocca
