Hazards to Humans and Domestic Animals
CAUTION

Causes moderate eye irritation Harmful if swallowed or absorbed through the skin
 Avoid breathing dust Avoid contact with eyes skin and clothing Wash thoroughly
 with soap and water after handling and before eating drinking chewing gum using
 tobacco or using the toilet Remove and wash contaminated clothing before reuse

Personal Protective Equipment (PPE)

Applicators and other handlers must wear

- long sleeved shirt and long pants
- chemical resistant gloves made of any waterproof material – Category A (e.g. natural rubber ≥ 14mils)
- shoes plus socks

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

Environmental Hazards

This pesticide is toxic to fish and wildlife. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash water or rinsate.

Attention This product contains a chemical known to the State of California to cause birth defects or other reproductive harm.

CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY

NOTICE Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using this product. If the terms are not acceptable, return the product at once unopened and the purchase price will be refunded.

The Directions for Use of this product must be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as manner of use or application, weather or crop conditions, presence of other materials or other influencing factors in the use of the product, which are beyond the control of SYNGENTA CROP PROTECTION LLC or Seller. To the extent permitted by applicable law, Buyer and User agree to hold SYNGENTA and Seller harmless for any claims relating to such factors.

SYNGENTA warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, subject to the inherent risks referred to above, when used in accordance with directions under normal use conditions. To the extent permitted by applicable law, (1) this warranty does not extend to the use of the product contrary to label instructions or under conditions not reasonably foreseeable to or beyond the control of Seller or SYNGENTA, and (2) Buyer and User assume the risk of any such use. **TO THE EXTENT PERMITTED BY APPLICABLE LAW, SYNGENTA MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS WARRANTED BY THIS LABEL.**

To the extent permitted by applicable law, in no event shall SYNGENTA be liable for any incidental, consequential or special damages resulting from the use or handling of this product. **TO THE EXTENT PERMITTED BY APPLICABLE LAW, THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF SYNGENTA AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTION OF SYNGENTA OR SELLER, THE REPLACEMENT OF THE PRODUCT.**

SYNGENTA and Seller offer this product, and Buyer and User accept it, subject to the foregoing Conditions of Sale and Limitation of Warranty and of Liability, which may not be modified except by written agreement signed by a duly authorized representative of SYNGENTA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

Observe all cautions and limitations on this label

Do not apply this product in a way that will contact workers or other persons either directly or through drift Only protected handlers may be in the area during application For any requirements specific to your State or Tribe consult the agency responsible for pesticide regulation

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard 40 CFR part 170 This Standard contains requirements for the protection of agricultural workers on farms forests nurseries and greenhouses and handlers of agricultural pesticides It contains requirements for training decontamination notification and emergency assistance It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted entry interval The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated such as plants soil or water is

- Coveralls
- Chemical resistant gloves made of any waterproof material – Category A (e.g. natural rubber ≥ 14 mils)
- Shoes plus socks

NON AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170) The WPS applies when this product is used to produce agricultural plants on farms forests nurseries or greenhouses

Do not re enter or allow others to enter treated areas until application is complete and dusts have settled

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN POOR INSECT CONTROL, CROP INJURY OR ILLEGAL RESIDUES

PRODUCT INFORMATION

WHERE TO USE

Use for control of fire ants in landscapes (including lawns) of residential commercial industrial and public buildings schools recreational areas and parks athletic fields playgrounds and churches

Use for control of fire ants around almond citrus and walnut trees in landscapes (including lawns) of residential commercial industrial or public areas

Use for control of fire ants in commercial nursery production of field and container grown ornamentals and non bearing trees

DO NOT apply to commercial sod farms

HOW AWARD II FIRE ANT BAIT WORKS

Award II Fire Ant Bait contains an oil bait that attracts imported fire ants Worker ants retrieve the bait and take it back to the mound Award II Fire Ant Bait is a slow acting stomach insecticide which allows the bait to be passed by the workers throughout the colony and eventually to the queen

Award II Fire Ant Bait is toxic to fire ants in the colony however this product is most effective against the queen because it causes an immediate halt of egg production and disappearance of the worker brood The disappearance of worker ants leads to the decline and eventual elimination of the fire ant colony

WHEN TO APPLY

Apply Award II Fire Ant Bait when ants are actively foraging (typically when soil temperatures are greater than 60°F [15°C]) or consult your state agricultural experiment station or state cooperative extension service to determine the optimum timing for application Apply after dew or rainfall has dried for maximum effectiveness For best results do not apply if rainfall is anticipated within 4 6 hours after application

For best results in citrus almond and walnut trees apply Award II Fire Ant Bait in the spring prior to planting and make annual treatments each spring

Note Allow 7 10 days after applying Award II Fire Ant Bait before using a contact insecticide This allows worker ants time to distribute bait throughout the colony

In cases where re infestation occurs or when very large mounds remain active retreatment may be desirable 3 4 months after initial application

HOW TO APPLY

Do not apply to commercial sod farms

Apply with ground application equipment only

Applications can be made by broadcast or individual mound treatment according to the directions below

Maximum Amount per Application Do not apply more than 1 lb Award II Fire Ant Bait per acre

Maximum Amount per Year Do not apply more than 4 lb Award II Fire Ant Bait per acre per year

Broadcast Application Apply uniformly on areas to be treated at a rate of 1 lb of bait/A Use properly calibrated equipment to ensure accurate dosage and uniform distribution

Individual Mound Treatment For best results use 5-7 tablespoons of Award II Fire Ant Bait per mound Sprinkle the bait uniformly in a circle around the base of the mound out to a distance of approximately 2-4 ft Do not contaminate kitchen utensils with this product

Do not treat more than 12 ant mounds per acre If there are more than 12 mounds per acre to be treated then follow **Broadcast Application** directions

For Commercial Nursery Use

Apply according to the **HOW TO APPLY** directions above with the following restrictions

- Apply to container grown ornamentals and non bearing trees by broadcast application only **Do not** treat individual containers with Individual mound treatment directions
- Field grown ornamentals and non bearing trees can be treated by broadcast or individual mound treatment directions
- Buffer zone If applying by broadcast or individual mound treatment application To avoid hazard to aquatic organisms do not apply Award II Fire Ant Bait within 25 feet of lakes reservoirs rivers permanent streams marshes pot holes natural ponds estuaries or commercial fish ponds

STORAGE AND DISPOSAL

Do not contaminate water food or feed by storage or disposal

Pesticide Storage

Award II Fire Ant Bait may be an attractant to rodents and domestic animals Store in a cool secure dry place To maintain maximum effectiveness close container tightly after each use and use within 5 months after opening

Pesticide Disposal

To avoid waste use all material in this container by application according to label directions If waste cannot be avoided offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state and local governments or by industry)

Container Handling (jugs)

Non refillable container Do not reuse or refill this container Completely empty jug into application equipment Then offer for recycling if available or puncture and dispose of in a sanitary landfill or by other procedures allowed by state and local authorities

Container Handling (bags)

Non refillable container Do not reuse or refill this container Completely empty bag into application equipment Then offer for recycling if available or dispose of empty bag in a sanitary landfill or by incineration

For minor spills leaks etc follow all precautions indicated on this label and clean up immediately Take special care to avoid contamination of equipment and facilities during cleanup procedures and disposal of wastes
