Subject: Label Amendment – Non-PRIA fast track to add Environmental Hazards language and update the PPE for Agricultural use, as required by the State of CA  
Product Name: Advion® Fire Ant Bait  
EPA Registration Number: 100-1481  
Application Date: July 3, 2018  
Decision Number: 546687

Dear Mr. Moseley:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Decision No. 546687

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Dr. Virna Stillwaugh by phone at 703-347-8506, or via email at [Stillwaugh.Virna@epa.gov](mailto:Stillwaugh.Virna@epa.gov).

Sincerely,

Richard Gebken

# 2.0 PRECAUTIONARY STATEMENTS

## 2.1 Hazards to Humans and Domestic Animals

### CAUTION

## 2.2 Personal Protective Equipment (PPE)

Applicators and other handlers must wear:

- Long-sleeved shirt and long pants
- Shoes plus socks

### 2.2.1 User Safety Requirements

Follow manufacturer's instructions for cleaning/maintaining personal protective equipment (PPE). If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

### 2.2.2 User Safety Recommendations

#### Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

## 2.3 Environmental Hazards

This pesticide is toxic to fish and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment rinsewater. Do not apply where/when

conditions could favor runoff. Runoff from treated areas may be hazardous to aquatic organisms in neighboring areas.

## DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

### AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This standard contains requirements for the protection of agricultural workers on farms (sod farms included), forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on the label about personal protective equipment, restricted-entry interval, and notification to workers (as applicable).

**Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 4 hours.**

For early entry into treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, wear:

- Coveralls
- Chemical resistant gloves (made of any waterproof material)
- Shoes plus socks

### NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are not within the scope of the Worker Protection Standard for agricultural pesticides, 40 CFR part 170. The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses.

Do not enter or allow others to enter the treated area until the application is complete.

## 3.0 PRODUCT INFORMATION

Advion Fire Ant Bait may be applied to control imported fire ants, bigheaded ants, pavement ants and turfgrass ants in: residential lawns and landscaped areas; commercial properties; institutional sites; sports and recreational turf; non-agricultural areas; and non-cropped areas.

Advion Fire Ant Bait may be applied to control imported fire ants, bigheaded ants, pavement ants and turfgrass ants in fenced pastures if grazed **only** by companion animals (i.e., animals not raised for production of meat or milk).

Advion Fire Ant Bait also may be applied to control imported fire ants in commercial nursery production of field- and container grown-ornamentals and non-bearing fruit and nut trees; and commercial production of turf grass sod on sod farms.

Refer to the Use Directions table in **Section 6.0** for specific treatment site examples where this product may be used to control listed pests.

## 4.0 APPLICATION DIRECTIONS

### 4.1 Methods of Application

Broadcast or individual mound treatments are permitted by ground application as specified in **Section 6.0**.

### 4.2 Application Equipment

- Apply with broadcast equipment capable of applying 1.5 pounds of Advion Fire Ant Bait per acre. Calibrate equipment before application.
- Use appropriate measuring utensils for individual mound treatments. Keep utensils used for measuring pesticides away from children.

## 5.0 RESTRICTIONS AND PRECAUTIONS

### 5.1 Use Restrictions

- **DO NOT** allow unprotected workers or other persons or pets in treated area during application.
- **DO NOT** apply product except on the sites and for the pests at the indicated rates and limitations specified in **Sections 6.0** of this label.
- **DO NOT** use kitchen utensils for measuring. Keep measuring utensils with pest control pesticides away from children.
- **DO NOT** allow livestock or domestic animals to consume the bait.
- **DO NOT** apply this product through any type of irrigation system.
- **DO NOT** apply in combination with other pesticides, fertilizers, and other biologically active materials as compatibility studies have not been completed.
- **DO NOT** formulate this product into other end-use products.

- **DO NOT** exceed 6 total pounds of product applied per acre per year (equal to 0.0027 pounds of active ingredient per acre per year).
- Not approved for use on bigheaded ants, pavement ants, and turfgrass ants in California.

## 6.0 USE DIRECTIONS

### 6.1 Lawns, Recreational Areas, Golf Courses, and Non-crop/Non-grazed Areas

Use Sites
