The outstanding action of CDQ is due to a combination of quaternary ammonium disinfectant, a biodegradable detergent and synergizing builders.

DIRECTIONS FOR USE

Bristol's CDQ is a concentrate and must be diluted before use. For normal cleaning and disinfecting, use 2 to 4 ounces per gallon of water. Floors should be mopped with this solution, using only clean mops. Other hard surfaces: wipe with clean rags, or use hand scrub brush. Wear rubber or plastic gloves while hand scrubbing and rinsing.

- Use at 4 oz. per gallon to kill *Ps. aeruginosa*.
- Use at 2 oz. per gallon to kill *S. aureus* and *S. choleraesuis*.

Outstanding rinsability, moderate foam height and synergized cleaning make CDQ outstanding for most washable surfaces including composition, terrazzo and marble floors; glass and metal equipment, and painted and varnished surfaces; vinyl and leather upholstery. Removes heavy soils and even strips wax from floors.
