KILLS HIV-1 ON PRE-CLEANED ENVIRONMENTAL SURFACE OBJECTS PREVIOUSLY SOILED WITH BLOODY BODY FLUIDS In health care settings or other settings in which there is an expected likelihood of soiling of nonporous surface objects with blood or body fluids and in which the surface objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS)

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OF SURFACE OBJECTS SOILED WITH BLOODY BODY FLUIDS:

PERSONAL PROTECTIVE: Specific barrier protection items to be used when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks, or eye coverings.

CLEANING PROCEDURE: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of ProQuat 128B. This pre-cleaning may be accomplished with any cleaning solution including ProQuat 128B.

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids should be aerosolized and disposed of according to federal, state and local regulations for infectious waste disposal.

CONTACT TIME: Leave surfaces wet for **ONE MINUTE**. This contact time will not neutralize other common types of viruses and bacteria.

Net Contents: 1 GALLON

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
USE: Floors, walls, metal surfaces, conductive flooring, painted surfaces, concrete base and trim, empty basins, instruments, chairs, and laundry tubs. For institutional use only such as in hospitals and nursing homes, schools and colleges, medical and dental offices, and veterinary clinics.
DIRECTIONS UNDESIRABLE HARD NON-POROUS SURFACES: Add one ounce to each gallon of water used. Always add ProQuat 128B to premeasured water. Apply only to surfaces to be cleaned. Apply solution by normal methods with brush, cloth, or mop. Thoroughly wet all surfaces to be cleaned, then remove excess solution with mop or applicator. Treated surfaces should remain wet for ten minutes. Remove gross soil mechanically by sweeping before cleaning begins. Discard solution when it becomes dry and replace with fresh solution. ProQuat 128B is a non-foaming product. Do not add other chemicals. Use only as directed.

GENERAL: Follow A.O.A.C. Germicidal Use-Dilution Method in 400 ppm hard water, 1:128 (1 oz. / gallon) in the presence of 1% organic matter, 10 minutes at 20°C.

FUNGICIDAL: Follow A.O.A.C. Fungicidal Test when diluted with 400 ppm hard water, 1:128 (1 oz. / gallon) in the presence of 1% organic matter, 10 minutes at 20°C.

VIROCIDAL: Follow A.O.A.C. Virocidal Qualification Test when diluted with 400 ppm hard water, 1:128 (1 oz. / gallon) in the presence of 5% organic matter, 10 minutes at 20°C.

**Precautionary Statements
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER**

KEEP OUT OF REACH OF CHILDREN: Corrosive. Causes eye and skin damage. Do not get in eyes, on skin or clothing. Wear goggles or face shield and rubber gloves when handling. Remove and wash contaminated clothing before reuse. Harmful if swallowed. Avoid contamination of food, water or feed.

STATEMENT OF PRACTICAL TREATMENT: In case of skin contact, wash thoroughly with soap and water. In case of eye contact, immediately flush eyes with water for 15 minutes and get prompt medical attention. If swallowed, drink promptly a large quantity of egg whites, gelatin solution or if these are not available, drink large quantities of water and alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Possible mucosal damage may contraindicate the use of gastric lavage.

STORAGE AND DISPOSAL

PRECAUTIONS: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty containers.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or waste is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control agency or the Hazardous Waste Management Unit of the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL - PLASTIC CONTAINER: Triple rinse (or equivalent) then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

GENERAL: Consult federal, state, or local authorities for approved alternative procedures.
