

SEP - 8 1970

**For Outdoor Control of
Flies, Mosquitoes, Wasps,
and Flying Moths (Outdoors)**

For outdoor use only as an aid in reducing annoyance of these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, garbage cans, and other places where these insects alight or congregate.

**Flies, Chiggers, Ants and
Brown Dog Ticks (Outdoors)**

For treatment of localized infestations of these insects in outdoor areas where there is no vegetation, spray infested areas thoroughly. For Ants, thoroughly wet hills and runways. Repeat applications as reinfestations occur.

CAUTION

Keep children and pets off treated areas until this material is washed into the soil and grass is dry. Harmful if swallowed. Avoid contamination of feed and foodstuffs. Avoid inhalation and skin contacts; wash hands thoroughly after using. Do not use on household pets or humans. Do not puncture or throw container into fire nor place on stove, radiator, or where temperature will exceed 120° F. which may cause it to burst.

Combustible Mixture — Do not spray near open flame. Do not smoke while using. To avoid possible staining of any surface, test first on an inconspicuous area. Do not spray on asphalt tile.

Kills resistant and non-resistant Roaches, Ants, and Flies. A residual insecticide for indoor and outdoor use.

**ROACH
& ANT
KILLER**

ACTIVE INGREDIENTS

O,O-diethyl O-(2-isopropyl-4-methyl-6-pyrimidinyl) phosphorothioate*	0.500%
Pyrethrins	0.052%
Technical Piperonyl Butoxide**	0.261%
Petroleum distillate	74.187%
*Diazinon	75.000%
**Equivalent to 0.209% (butylcarbityl) piperonyl ether and .052% other related compounds	

INERT INGREDIENTS

25.000%

CAUTION: KEEP OUT OF REACH OF CHILDREN

See Side Panel for Additional Cautions

NET WT. 14 OZ.

KILLS

Roaches	Silverfish	Carpet
Ants	Spiders	Beetles
Flies	Fleas	Flying Moths
Mosquitoes	(outdoors)	Crickets
Brown Dog Ticks	Waterbugs	Chiggers
	Wasps	

Directions for Use

To operate: Hold can upright 6 to 12 inches from area to be sprayed. Spray infested surfaces only until wet. Use in well ventilated room. For spot application only.

**Roaches, Ants, Spiders, Silverfish,
Waterbugs, Crickets**

Spray heavily into cracks in walls, floors, baseboards, and other places where these insects hide or breed. Also spray until wet, surfaces behind and beneath cabinets, refrigerators, stoves, etc. Spray other localized areas infested with these pests. Repeat treatment as required.

For Ants, apply to trails, window and door sills, and other places where they enter.

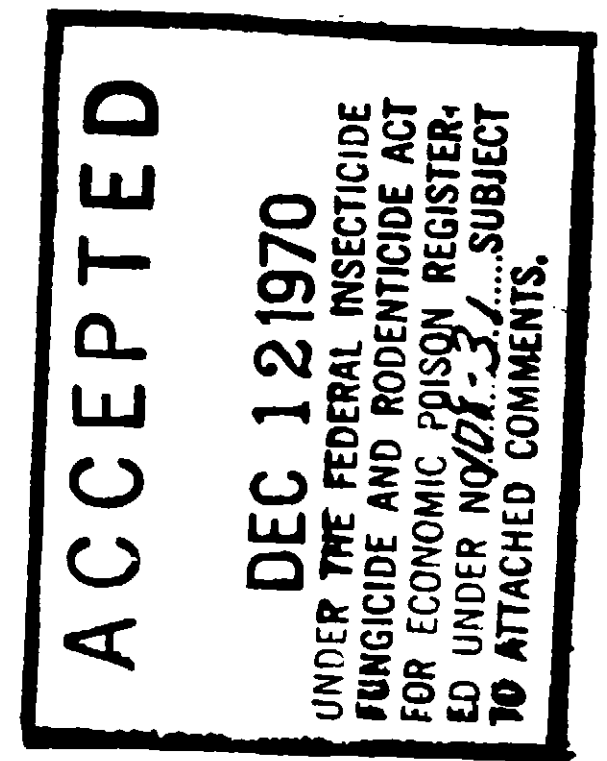

Brown Dog Ticks

Thoroughly spray infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of household pets, and localized areas of floors and floor coverings. Applications should be repeated as infestations warrant and as reinfestations occur. Fresh bedding should be placed in animal quarters after the sprayed area has dried thoroughly. Do not spray directly on pets.

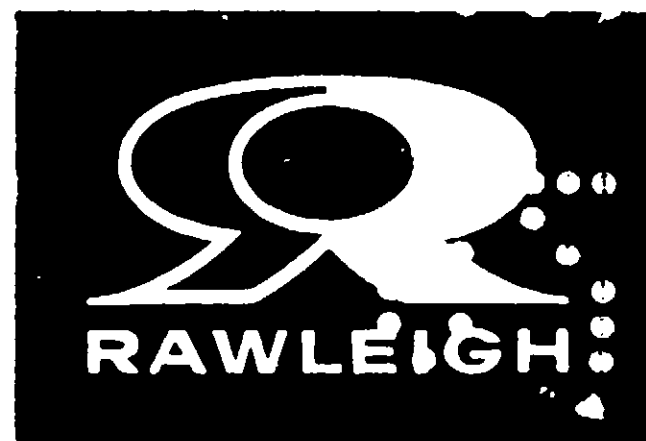

Carpet Beetles

Make localized application to areas of the floor and baseboards. Spray directly into cracks and under carpets, where insects may be found. Treat crevices, cracks or closets and infested areas of shelving. Repeat as necessary.
