

[115-20]

INSECTICIDE NO. 520

NET CONTENTS GALLONS

EPA REG. NO. 115-20

ACTIVE INGREDIENTS - 100%	
Piperonyl Butoxide Technical*	0.60%
Pyrethrins	0.30%
N-Octyl Bicycloheptene Dicarboximide	1.00%
Petroleum Base Oil	98.10%
*Equivclent to 0.48% (butylcarbityl) (6-propylpiperonyl) ether and 0.12% of related compounds.	

CAUTION: KEEP OUT OF THE REACH OF CHILDREN. MAY BE HARMFUL IF SWALLOWED.

Use in food processing plants only when plant is not in operation. When used in food areas, all food handling equipment should either be covered or washed down after spraying to prevent possible contamination of food. Food should also be covered or removed from the room. Remove birds, pets and fishbowls from rooms being sprayed.

DIRECTIONS FOR USE: Effective against household ants, house crickets mosquitoes, roaches, silverfish, spiders and exposed stages of cadelles. No. 520 must be applied in such a manner that it comes in direct contact with the insect to be killed. For house flies and mosquitoes, a fogging or atomizing device may be used to treat enclosed spaces. For cadelles spray empty bins, cracks and other hiding places. For ants, gnats, roaches, spiders and house crickets, spray floor area, webs, cracks and crevices where insects hide or enter area to be protected. For silverfish thoroughly spray closets, storage areas and book shelves and other likely hiding places. For fleas, spray animal sleeping quarters, thoroughly treat floors, rugs, and under furniture, replace animal bedding after treatment. For hornets and wasps, spray nest or if not accessible, area where they are seen entering or leaving structure. For clover mites, spray outdoor infested areas, around window frames, around pipes and into cracks and crevices where they may enter structure.

In fogging and atomizing devices, 2 to 3 ounces will treat approximately 1500 cu. ft. of space. Do not remain in enclosed treated areas. Ventilate the area after treatment is completed. In sprays 1 gallon will treat about 1200 sq. ft. Repeat applications when necessary.

NO. 520 is toxic to fish. Keep out of any body of water. Do not contaminate by cleaning of equipment or disposal of wastes. Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place away from water supplies.

FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY.

FOR USE BY: Bakeries - Bottling Plants - Breweries - Canneries
Dairies - Food Processing Plants - Hotels - Hospitals
Institutions - Markets - Packing Houses - Rendering
Plants - Restaurants - Schools - Stores - Theatres.

EFFECTIVE: Contact results in rapid knock down and kill.
ECONOMICAL: High percentage of active ingredients allows use of less material.

EASY TO USE: Liquid form can be used in any type spray or fogging device—no objectionable odors.
