1 1817

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Make the labeling changes listed below before you release the product for shipment:

- a. Add the phrase, "EPA Registration No. 121-35."
- b. Revise the PRECAUTIONARY STATEMENTS to reflect the appropriate toxicity categories for the product formulation as follows:

DANGEROUS if absorbed through the skin. Avoid contact with the skin, eyes or clothing. Wash thoroughly with soap and water after handling.

In addition, the STATEMENTS OF PRACTICAL TREATMENT for oral and eye exposure can be deleted. However, the following statement should be added to the label:

Advise Physician: Inducing vomiting as first aid for this product may result in increased risk of chemical pneumonia or pulmonary edema caused by aspiration of the hydrocarbon solvent. Vomiting should be induced only under professional supervision.

DATE
OCT 16 1987

- c. The word "new" can be used to describe this product for a period of 6 months, after which it must be deleted from the product label. Also replace the word "unique" with "new" in the description of the formulation.
- d. In the DIRECTIONS FOR USE paragraph revise the statement regarding food preparation areas to read "Do not use in food/feed processing, plants, restaurants or other areas where food/feed is commercially prepared or processed. Do not use in serving areas while food is exposed."
- e. The words "For Household Use Only" should appear preferably on the front panel of the label.
- f. The ingredient statement should be listed vertically on the front panel of the label.
- g. The following label statements are either considered false or misleading concerning the safety and/or efficacy of the product and must be deleted:
 - 1) Fresh, Clean, ~~Pleasant Scent~~;
 - 2) Kills flying insects so fast you can see them fall;
 - 3) The next generation of insecticide ingredient;
 - 4) The new insect killing technology; and
 - 5) Faster knockdown than the leading spray.
- h. Under Directions for Use, revise the statement "Keep room closed for 15 minutes . . ." to "Keep room closed for 1 hour after spraying."
- i. The following pests must be deleted from the labeling since no data were submitted in support of these pests: Silverfish and centipedes.
- j. In the Directions for Use for control of flying insects, revise the statements to include the application rate (i.e., "Spray for 5 to 10 seconds for each 1000 cu ft.")
- k. The petroleum distillates are not considered active in this formulation and must be included in the total percentage of inert ingredients.
- l. In the Directions for Use for control of roaches, crickets, etc., add "Use as a spot treatment only. To kill ants, spray around door and window frames. Thoroughly treat trails, runs, walks, or other places where insects may be seen."

m. The EPA Establishment Number must appear on the product label or the immediate container.

2. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

LASER[®]
FLYING INSECT KILLER

FRESH, CLEAN, PLEASANT SCENT
FASTER KNOCKDOWN THAN THE LEADING SPRAY

- Kills flying insects so fast you can see them fall.
- The modern flyswatter.
- With a unique combination of ingredients.

PRECAUTIONARY STATEMENTS:

CAUTION: HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed, inhaled or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

STATEMENTS OF PRACTICAL TREATMENT:

IF SWALLOWED: Call a Physician of Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching finger to back of throat. Do not induce vomiting or give anything by mouth to an unconscious person.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.

IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists.

PHYSICAL/CHEMICAL HAZARDS:

FLAMMABLE. Do not use or store near heat sources, sparks or open flame. Do not use in the vicinity of pilot lights. Contents under pressure. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

LASER™
FLYING INSECT KILLER

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Shake well before using. Hold container upright while spraying. Spray away from self and other persons.

DO NOT USE in commercial food preparation areas. REMOVE or COVER exposed food, dishes, food equipment and food processing surfaces. CLEAN thoroughly before reuse.

REMOVE pets and tightly COVER or remove fish bowls and aquariums in area being sprayed.

BEFORE USING near appliances with pilot lights, be sure to extinguish pilot lights. TURN OFF electrical equipment in area being sprayed. DO NOT smoke while using.

TO KILL: HOUSEFLIES, STABLEFLIES, MOSQUITOES, SMALL FLYING MOTHS, GNATS, WASPS, HORNETS AND OTHER FLYING INSECTS.

Close all doors and windows. Spray upward in room with a slow sweeping motion for about 5-10 seconds. Keep room closed for 15 minutes after spraying. Do not remain in treated area. Ventilate room after treatment and before reoccupying.

TO KILL: ROACHES, WATERBUGS, CRICKETS, ANTS, SILVERFISH, SOWBUGS, SPIDERS, CENTIPEDES AND OTHER CRAWLING INSECTS.

Hit as many insects as possible with the spray. To kill ants, spray around door and window frames and other places where ants may enter house. Outdoors, spray ant hills and ant trails. Repeat as necessary.

ALSO KILLS: CONFUSED FLOUR BEETLES, RICE WEEVILS AND OTHER PACKAGE PESTS.

Locate and discard infested packages. Remove all other items from shelves to be treated. Spray shelves to destroy insects. After insects are destroyed, clean shelves, replace paper and return items. Repeat as necessary.

TO KILL: TICKS AND FLEAS.

DO NOT TREAT ANIMALS WITH THIS PRODUCT. Remove and destroy old pet bedding. Spray sleeping quarters of pets. Do not allow pets to use treated areas until spray has dried. Replace bedding with clean or new material. Treat pets with a product registered for animal application to control the source of flea and tick infestation.
