 <p align="center">U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Registration Division (7505P) 1200 Pennsylvania Ave., N.W. Washington, D.C. 20460</p>	EPA Registration No. 121-56	Date of Issuance: JAN 29 2008
	Term of Issuance: Conditional	
<p align="center">NOTICE OF PESTICIDE: <input type="checkbox"/> Registration <input checked="" type="checkbox"/> Reregistration (under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</p>	Name of Pesticide Product: Cutter Insect Repellent #10TL	
	<p>Name and Address of Registrant (include ZIP Code): Spectrum, a Div. of United Industries Corporation P.O. Box 142642 St. Louis, MO 63114-00642</p>	
<p>Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.</p>		
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.</p> <p>Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>This action is taken under the authority of section 4(g)(2)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.</p> <p>Based on your response to the Reregistration Eligibility Document(s), EPA has reregistered the product listed above provided that the following change is made to the label:</p> <ol style="list-style-type: none"> 1. Remove the following marketing claims: <ol style="list-style-type: none"> a. [NOW... PLEASANT PROTECTION THATS EFFECTIVE FOR HOURS! 2. Revise the Net Weight from Total Net Wt 3 oz.(85g) to fluid ounces and mg.¹ 3. Within the Directions for Use section, revise as follows: <ol style="list-style-type: none"> a. Directly below the FIFRA required statement "It is a violation of Federal law to use this product in a manner inconsistent with its labeling" Replace all text with following statements: 		

¹ Liquid Formulations. The net contents must be expressed as gallons, quarts, pints or fluid ounces [See 40 CFR 156.10(d)]

“For Outdoor Use Only. Never use repellents over cuts, wounds, sunburned or irritated skin. Do not apply near eyes and mouth, and apply sparingly around ears. Do not allow children to handle this product, and do not apply to children’s hands. When using on children, apply to your own hands and then put it on the child. Apply only to exposed skin and/or clothing (as directed on the product label). Do not use under clothing. Use just enough repellent to cover exposed skin. Heavy application and saturation is unnecessary for effectiveness; if biting insects do not respond to a thin film of repellent, apply a bit more. After returning indoors, wash treated skin with soap and water or bathe. This is particularly important when repellents are used repeatedly in a day or on consecutive days. Also, wash treated clothing before wearing it again. **Use of this product may cause skin reactions in rare cases. If you suspect a reaction to this product, discontinue use, wash treated skin, and call your local poison control center. If you go to a doctor, take this product with you.**

Remove the lid from the container by pulling upward. Remove the protective foil. Lift flap on lid. Pull up the center towelette and thread the corner of towelette through the open flap in lid; DO NOT push finger through lid opening. Replace lid on container. Towelettes should be pulled at an angle to dispense one at a time. The lid should be tightly closed on container between uses to keep towelettes from drying out. [Optional directions for a single packet towelette: Tear open foil pack.] Unfold towelette and wipe evenly over exposed skin.

Will not damage nylon, cotton, or wool. Wipe hands after application as product may damage some synthetic fabrics, plastics, watch crystals, leather, painted or varnished surfaces.

4. Revise the Storage and Disposal Section as follows:

“Storage and Disposal

Pesticide Storage: Store in a cool dry place away from heat or open flame.

Pesticide Disposal: If empty: Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.”

5. Remove the following subsection and associated text from the First Aid section:²

“IF YOU SUSPECT A REACTION TO THIS PRODUCT: Discontinue use. Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice. 20 minutes”

6. The Agency is in the process of developing and improving the current Efficacy Assessment Guidelines for repellent products. The Agency intends to defer the determination of any related efficacy data requirements supporting the claims that may appear on this label until these Efficacy Assessment Guidelines are complete. When the guidelines are finalized, the Agency expects to issue a Data Call-In to address the revised guidelines to all registrants with registrations for personal repellent products that have not previously submitted efficacy data sufficiently consistent with the revised guidelines.

² There is no specific requirement within PR Notice 2001-1 for the insertion of this language within the First Aid Section. This language should be moved to the Directions for Use as discussed below.

7. **Note:** The Notification approval dated February 24, 2006 by the Agency is rescinded. The 8570-1 form indicates that the submission was for 121-56 in Box 1, but the product name, and label are for 121-88.

You must submit two copies of the finished label revised in accordance with the comments listed above before the product is released for shipment under this label. If you have any questions, you may contact Carmen Rodia at (703)-306-0327 or rodia.carmen@epa.gov.

A copy of your label stamped "Accepted with Comments" is enclosed for your records.

BACK PANEL

STOP. Read and follow all directions and precautions on this product label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. *For outdoor use only.*

Remove the lid from the container by pulling upward. Remove the protective foil. Lift flap on lid. Pull up the center towelette and thread the corner of towelette through the open flap in lid; **DO NOT** push finger through lid opening. Replace lid on container. Towelettes should be pulled at an angle to dispense one at a time. The lid should be tightly closed on container between uses to keep towelettes from drying out. [Optional directions for a single packet towelette: Tear open foil pack.]

Unfold towelette and wipe evenly over exposed skin. Use just enough repellent to cover exposed skin. Do not use under clothing. When using on face, apply sparingly, avoiding eyes. Do not apply near eyes and mouth. Apply sparingly around ears. Do not apply over cuts, wounds or irritated skin. Do not apply to sunburned skin. Do not apply to children's hands. Do not allow children to handle this product. [Frequent reapplication is un-necessary.] Avoid over-application of this product. After returning indoors, wash treated skin with soap and water and double-check yourself, other family members and pets for ticks. Wash treated clothing before wearing it again. Will not damage nylon, cotton, or wool. Wipe hands after application as product may damage some synthetic fabrics, plastics, watch crystals, leather, painted or varnished surfaces. Use of this product may cause skin reactions in rare cases. If you suspect reaction to this product, discontinue use, wash treated skin and call your local Poison Control Center. If you go to a doctor, take this product with you.

STORAGE AND DISPOSAL

Pesticide Storage: Store the product in a cool and dry place. Keep out of reach of children. **Container Disposal: If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS**Hazards to Humans**

WARNING - Causes substantial but temporary eye injury. Harmful if swallowed. Do not get in eyes. Use of this product may cause skin reactions in rare cases. Wash treated clothing before wearing it again. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

First Aid

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call

a Poison Control Center or doctor for treatment advice. **IF SWALLOWED:** Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.

IF YOU SUSPECT A REACTION TO THIS PRODUCT: Discontinue use. Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

HOT LINE NUMBER: In case of an emergency call toll free [1-800-767-9927].
