UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, D.C. 20460

OFFICE OF  
PREVENTION, PESTICIDES  
AND TOXIC SUBSTANCES

September 12, 2008

Mr. William Metzger, Division Vice President  
Spectrum, Division of United Industries, Corp.  
P.O. Box 142642  
St. Louis, MO 63114-0642

**Subject:** Amended Reregistration Label For: Cutter Insect Repellent #CC 129-15  
EPA Registration No. 121-74

Dear Mr. Metzger;

The Agency in accordance with the Federal Fungicide and Rodenticide Act as Amended (FIFRA) has completed reviewing all of the information submitted with your application to support the reregistration of the aforementioned product in connection the DEET, and has concluded that your submission is acceptable with the following label revision provisions:

Remove the following statement from the directions for use: "Spread evenly and completely over exposed skin before sun exposure."

Revise the Hazards to Humans section of the label as follows:

**"HAZARDS TO HUMANS**

Causes moderate eye irritation. Avoid contact with eyes. Wash hands before eating, drinking, chewing gum, or using tobacco or using the toilet."

Revise the First Aid section of the label as follows:

**"FIRST AID**

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-XXX-XXXX<sup>1</sup> for emergency medical treatment information."

Revise the Storage and disposal statement to:

**"STORAGE AND DISPOSAL**

**Pesticide Storage:** Store this product in a cool dry place. Keep out of reach of children.

**Pesticide Container Disposal:**

**If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partially filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain."

<sup>1</sup> An appropriate phone number that is available 24/7 should be inserted into the section denoted with XXX-XXXX.

A toll-free telephone number must appear on all product labels for consumers to call for additional product information and to report incidents.

Current labels on DEET repellent products tend to dissolve from contact with the repellent (usually liquids). All reregistered DEET product labels must use materials that remain permanent and readable for the reasonable life of the product. The Agency determined in the DEET RED document that all aerosol and pump spray formulations must be packaged in containers utilizing a concave trigger to help aim product or other comparable mechanism that will ensure that the product will not be inadvertently sprayed in the eyes.

The Agency is in the process of developing and improving the current Efficacy Assessment Guidelines for repellent products. The Agency intends to defer the determination of any related efficacy data requirements supporting the claims that may appear on this label until these Efficacy Assessment Guidelines are complete. When the guidelines are finalized, the Agency expects to issue a Data Call-In to address the revised guidelines to all registrants with registrations for personal repellent products that have not previously submitted efficacy data sufficiently consistent with the revised guidelines.

Should you wish to add/retain a reference to the company's website on your label, please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance. As an alternative, you may refer consumers to the company's phone number or email address.

**NOTE:** This product is not being re-registered under FIFRA Sec. 4(g) at this time.

You must submit two copies of the final printed label revised in accordance with the comments listed above before the product is released for shipment under this label. If you have any questions, you may contact Carmen Rodia at (703)-306-0327 or [rodia.carmen@epa.gov](mailto:rodia.carmen@epa.gov).

A copy of your label stamped "Accepted with Comments" is enclosed for your records.

Sincerely,

Richard J. Gebken, Product Manager (10)  
Registration Division, Insecticide Branch

Octyl methoxycinnamate .....	7.5%
Oxybenzone .....	5.0%

**STOP. Read and follow all directions and precautions on this product label.**

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not use in enclosed areas. Adults and children 6 months of age and over: Spread evenly and completely over exposed skin before sun exposure. To apply, put a small amount in palm of hand, rub palms together, then spread evenly over exposed skin and/or clothing. Use just enough repellent to cover

exposed skin and/or clothing. Do not use under clothing. If used on face, apply sparingly and avoid eyes. Do not apply near eyes and mouth. Apply sparingly around ears. Do not apply over cuts, wounds or irritated skin. Do not apply to children's hands. Do not allow children to handle this product. When using on children, apply to your own hands and then put it on the child. [For extra protection from [crawling] ticks, chiggers and fleas, apply along all openings of clothing, such as neckband, waistband, pant and sleeve cuffs, sock tops and other areas where insects may crawl under clothing.] [Frequent reapplication is unnecessary.] Avoid over-application of this product. After returning indoors, wash treated skin with soap and water [and double-check yourself, other family members and pets for ticks.] Wash treated clothing before wearing it again. Will not damage nylon, cotton, or wool. May damage some synthetic fabrics, plastics, watch crystals, leather, painted or varnished surfaces. Use of this product may cause skin reactions in rare cases. If you suspect reaction to this product, discontinue use, wash treated skin and call your local Poison Control Center. If you go to a doctor, take this product with you.

**DISPOSAL** - Do not reuse empty container. Wrap in newspaper and discard in trash.

### PRECAUTIONARY STATEMENTS Hazards to Humans

**CAUTION** - Causes moderate eye irritation. Avoid contact with eyes.

### First Aid

**In Eyes** - Flush with plenty of water. Call a physician if irritation persists.

**NOTICE:** Buyer assumes all responsibility for safety and use not in accordance with directions.
