CITRONELLA – AN AMAZING DISCOVERY

Centuries ago, natives of Indonesia discovered an amazing grass which, when burned, emitted a fragrance that enhanced the ambiance of the outdoors and also repelled insects. The oil from this grass, known as Citronella, is the basis for this candle from Cutter.

Cutter Insect Repellent Icarus citronella candle repels mosquitoes, gnats and other flying insects in a convenient, weather proof container. No need to ever remove the cover, simply twist the lid to open and close. Keeps the candle clean and dry.

Cutter Insect Repellent Icarus [candle] repels mosquitoes, gnats and other flying insects. Cutter Icarus burns up to 50 hours [28 oz candle]. Each Cutter Insect Repellent Icarus [candle] comes in an exclusive metal bucket, which is designed to keep the flame lit even in windy conditions. And Cutter Insect Repellent Icarus has a unique plastic base that won't stain a deck or patio. To maximize the repellent barrier, use several Cutter Insect Repellent Icarus [candles] to create perimeter protection against flying insects.

Provides a repellent barrier against mosquitoes, gnats, and other flying insects. Each Cutter Insect Repellent Icarus [candle] comes in a convenient [tin] [bucket] with a lid, for portable protection. [Bucket] [Tin] Guaranteed not to leak. Great for camping, picnics and other outdoor activities. To maximize the repellent barrier, use several Cutter Insect Repellent Icarus [candles] to create perimeter protection against flying insects. [Each (26 oz.) bucket] burns for up to 40 hours. [Each (10 oz. tin)] burns up to 20 hours.

STOP. READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR OUTDOOR USE ONLY. NEVER LEAVE ANY BURNING CANDLE UNATTENDED. DO NOT USE WATER TO EXTINGUISH.

121-80

05/20/2004

To reduce annoyance of mosquitoes, use one or more candles in still air. Best results within three feet. Do not use indoors or enclosed areas such as garages or porches or tents. Place candles at least 18 inches apart. Container may become hot; handle carefully. Place on heat resistant surface away from anything flammable and out of reach of children or pets. Do not move candle while burning or before wax hardens. Always extinguish flame before moving. **Do not BLOW OUT OR use water to extinguish** – smother flammable material to extinguish. Keep wick trimmed to ½ inch or less at all times. Keep candles free of matches or other foreign matter, which may present a fire hazard. Discontinue use when 1 inch of wax remains. To maximize the repellent barrier, use several Cutter Insect Repellent Icarus citronella candles to create perimeter protection against flying insects.

For metal bucket: Remove label before burning.

For metal tin or bucket: Remove lid before burning.

For Metal Tin Only: Place lid on top of tin to extinguish. Lid will be hot after extinguishing flame.

For Weather Proof Only: Twist cover to open position. Light wicks and enjoy. When finished using candle, twist cover to closed position. Cover and knob may become hot.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed. Not following instructions may lead to fire hazard or personal injury.
