DIRECTIONS

H&C FLY SPRAY contains pyrethrins, combined with piperonyl butoxide to give a potent fly-killing agent. When used according to directions, it kills flies and mosquitoes. H&C FLY SPRAY contains a lighter-base oil allowing it to cover more area, do a superior job.

TO KILL FLIES ON MILK COWS, BEEF ANIMALS AND HORSES: Use a sprayer which throws a fine mist. Spray no more than two fluid ounces on each animal morning and night, or spray until a fine dew appears on the ends of the hair. Avoid wetting coat with any oil spray. Make sure belly and legs are thoroughly covered.

TO KILL FLIES IN STABLES AND OTHER BUILDINGS: Use a sprayer which throws a high volume of fine spray. Close all doors and windows. Make sure that no open milk containers are exposed. Spray upward so as to create a fine mist. Leave the room closed for 5 or 10 minutes.

CAUTION: Combustible – Do not pour or use near an open flame or inside dwellings. Avoid inhalation. Harmful if swallowed. Do not wet the skin of dairy animals or apply more than two fluid ounces of spray to an animal at one time. Do not use on pets. Do not use on plants. This product is toxic to fish. Keep out of lakes, streams and ponds.

Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place.
