STORAGE AND DISPOSAL

STORAGE

Do not contaminate water, food or feed by storage.

KEEP UPRIGHT WHILE MOVING AND IN STORAGE. Container equipped with a pressure relief closure. **KEEP FROM FREEZING.** Store in original container only, in safe manner. Do not store under conditions which might adversely affect the container or its ability to function properly. Reduce stacking height where local conditions can affect package strength. Open container in a well ventilated area, avoid breathing vapor. Keep container tightly closed when not in use.

SPILL CONTROL

Soak up spill in a dry absorbent such as clay. Sweep it up, put into disposal containers and dispose as directed below. Wear protective clothing and equipment consistent with good pesticide handling procedures while exposed to spilled material.

PESTICIDE DISPOSAL

Do not contaminate water, food or feed by disposal.

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration or, if allowed by State and Local authorities, by burning. If burned, stay out of smoke.
