

**DIRECTIONS FOR USE AS A
DISINFECTANT**

This Disinfectant should always be diluted with water before using, as the use of the concentrated Disinfectant may cause irritation of the skin.

Sweep up all dust and dirt before applying PINEOLENE and be sure all infected areas are saturated with a solution of the Disinfectant.

Floors, Toilet Rooms, Bathrooms, Lavatories, Urinals, Sinks, etc., should be cleaned thoroughly first and then use 2½ ounces PINEOLENE to each gallon of water and mop in regular manner. Can also be used in a sprayer for saturating surfaces that need to be disinfected and deodorized. Use the same quantity of Disinfectant to each gallon of water as recommended above.

For conditions that are exceptionally bad, such as dirty urinals, garbage cans, etc., be sure that the surfaces are thoroughly

cleaned by use of strong cleaning solutions, removing all dirt, then make sure Disinfectant comes in contact with all infected areas. Disinfect with a solution of 5 ounces PINEOLENE per gallon.

CAUTION!

Since this product contains a disinfectant cease its use if any irritation develops. This Disinfectant should not be taken internally. If it is, use the following antidotes: Give milk, raw egg white, mucilage, gruel or cornstarch paste, and follow with an emetic (tablespoonful of mustard in a tumbler of warm water). CALL A PHYSICIAN.

If concentrated Disinfectant comes in contact with the skin, flood with water and bathe with diluted alcohol.

Avoid inhalation of fumes of undiluted material, as well as contact with the skin. Keep away from children, domestic animals and foodstuffs.
