DIVISION OF HUNTINGTON LABORATORIES INCORPORATED

### DIRECTIONS FOR USE

Use 1 ounce Sterylcylene per gallon of water (250 ppm) for general cleaning and sanitizing of hard surfaces. Use 2 ounces of Sterylcylene per gallon of water (500 ppm) for cleaning, disinfecting and deodorizing hard surfaces. Where infectious disease germs may be present, rinse all surfaces and repeat treatment as directed. If heavy soil or organic matter is present, rinse all surfaces and repeat as above.

### HOW STERYLCLENE WORKS

Sterylcylene is a concentrated balanced formulation containing a positive deodorizer, non-ionic detergent and builders. This combination makes Sterylcylene a most efficient product for cleaning, disinfecting and deodorizing in one labor-saving operation.

### WHERE TO USE:

Sterylcylene should be used at regular intervals to thoroughly clean, deodorize, sanitize, and disinfect floors, lavatories, toilet bowls, urinals, walls, telephones, furniture, garbage pails, refrigerators, diaper pails, shower stalls, venetian blinds, and other similar articles, and areas that require general cleaning.

## STERYLCLENE

### Detergent-Sanitizer Deodorant-Disinfectant

ACTIVE INGREDIENTS:	n-Alkyl (50% C <sub>12</sub> , 30% C <sub>14</sub> , 17% C <sub>16</sub> , 3% C <sub>18</sub> ) dimethyl ethylbenzyl ammonium chloride	1.6%
	n-Alkyl (60% C <sub>14</sub> , 30% C <sub>16</sub> , 5% C <sub>12</sub> , 5% C <sub>18</sub> ) dimethyl benzyl ammonium chloride	1.6%
	Sodium carbonate (soda ash)	3.0%
		93.8%

\*INERT INGREDIENTS:  
\*This formula contains compatible non-ionic detergents.  
PHENOL COEFFICIENTS: S. Typhosa ..... 19 Staphylococcus Aureus ..... 29

**CAUTION: HARMFUL IF SWALLOWED  
KEEP OUT OF REACH OF CHILDREN  
SEE SIDE PANEL FOR ADDITIONAL CAUTIONS**

FOR USE IN RESTROOMS, FISH MARKETS, NURSING HOMES AND ALL PLACES WHERE ODORS ARE OBNOXIOUS.

### CAUTION

Sterylcylene is a concentrated product, and should be diluted before using. Do not allow it to come in contact with food. Non-toxic in use-dilutions when used as directed. It should not be mixed with soap or other anionic detergents which are incompatible. Avoid getting the concentrate in the eyes. In case of contact with the eyes, wash thoroughly with water. If irritation persists, get medical attention. AVOID SKIN CONTACT.
