

BEFORE USE READ DIRECTIONS, CAUTION AND NOTICE STATEMENTS CAREFULLY

APPLICATIONS: Apply Chlordane Dust #10 directly from the sifter top or with an effective hand duster.

FOR LAWNS: To control ants, chinch bugs and chiggers, dust lightly at the rate of 1 pound per 900 to 1,000 square feet of area. Repeat as necessary. For white grubs, Japanese beetle grubs and sod webworm (lawn moth) apply liberally at the rate of 1 pound per 400 to 500 square feet. Water or sprinkle thoroughly to get insecticide into nests and living places. Keep children and pets off treated areas until the areas have been well watered and have dried completely. This treatment is effective for entire season.

IN GARDENS: As preplanting, transplanting or planting time treatments only, to control cutworms, earwigs, mole crickets, sowbugs, millipedes and leaf cutting ants on beans, cabbage, lettuce, onions, peas, radishes, strawberries and tomatoes; dust liberally on the ground around the plants. This treatment remains effective at least 10 days. Re-treat as necessary. One pound treats 500 square feet. Apply only as specified on the label.

FOR FOLIAGE TREATMENT: To control grasshoppers, thrips and plant bugs on rosebuds, flowers, shrubs and other

ornamentals, dust directly on the plants and insects. Repeat as necessary to prevent damage.

FOR GARDEN SOIL: To control wireworms, Japanese beetle grubs, white grubs and root maggots on radishes, onions and cabbage, work into the top 2 or 3 inches of soil when preparing seed beds. Treatment of soil for vegetables should be limited to pre-plant applications at planting or transplanting. One pound will treat 1,000 to 1,200 square feet. This treatment remains effective for one entire season.

FOR BULB TREATMENT: For treatment before storing or planting bulbs to control thrips on dahlias, gladiolas, hyacinths, tulips and most flowering bulbs, place a few bulbs in a strong paper bag, dust a tablespoon of Chlordane Dust #10 on the bulbs, close opening and shake vigorously.

CAUTION

Avoid inhalation. Avoid contamination of feed and foodstuffs. Keep out of the reach of children. Do not use on animals or pets. Misuse as to quantity, timing or method of application can cause damage or injury to animals, persons, property or crops or cause residues in excess of official tolerances.

NOTICE

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
