thoroughly before treatment; don't water again for several days after treatment.

Birds feeding on treated areas may be harmed. Keep children and pets off treated areas until insecticide is washed into the soil and grass is thoroughly dry.

TERMITES: For effective residual control of termites around foundations trench to depth of 2 feet and apply 1 gallon of solution (1/4 pint to 1/2 quart of Chlordane E-8 in 6 gallons of water—1/2% to 2% solution) per linear foot. For deeper foundations a trench 30 inches deep should be provided. Do not dig below top of footings. For adequate control remove at least half of the soil from trench, loosen the remaining soil thoroughly and apply one-half the diluted solution to this loosened soil. Apply the remainder of the solution to the soil that was removed as it is replaced in the trench. Inspect annually for re-infestation.

CAUTION—Harmful if swallowed. Repeated or prolonged contact with skin can cause toxic symptoms. Avoid breathing spray mist. In case of contact with skin, wash with soap and water. Avoid contamination of feed and foodstuffs. Keep out of reach of children. Do not use on household pets or humans. Do not pour, store or use near heat or open flame. Misuse as to quantity, timing or method of application can cause damage or injury to animals, persons, property or crops or cause residues in excess of official tolerances.

NOTICE: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

DE-PESTER®

CHLORDANE

E-8

Contains 73% CHLORDANE

CAUTION Keep Out of Reach of Children

SEE OTHER PANEL FOR ADDITIONAL CAUTIONS.

ACTIVE INGREDIENTS:

Technical chlordane* 73.0%
Petroleum distillate 22.0%

INERT INGREDIENTS 5.0%

* (Contains 43.8% actachloro-4,7-methano-tetrahydroindane and 29.2% related compounds) 100.0%

DIRECTIONS

BEFORE USE READ DIRECTIONS, CAUTION AND NOTICE STATEMENTS CAREFULLY

HOUSEHOLD PESTS—Use 1/2 oz. (1 tablespoon) Chlordane E-8 in 1 1/2 pints water. For roaches, waterbugs, silverfish, spiders, use as coarse, wet spray or apply thoroughly with brush to infested cracks, surfaces, and hiding places where insects are known to crawl; such as darkened areas, along waterpipes, baseboards, and infested areas of floors and shelves in closets, undersides of bookshelves, around storage areas, lavatories, sinks. For carpet beetles in premises apply only to areas around baseboards, in cracks and under carpets where these insects are known to frequent. Apply to closet shelves if necessary. Repeat treatments as needed.

ANTS—Lawns, Turf: Mix 1 tablespoon in 5 gallons water and apply over 1,000 square feet area by sprinkling or spraying. **INDOORS:** 1/2 ounce (1 tablespoonful) in 1 1/2 pints water. Apply thoroughly with brush, or as coarse, wet spray to infested surfaces, cracks, ant-trails, areas around doors, window sills, water pipes, heat ducts, electrical outlets and baseboards where ants enter premises. Repeat treatments as needed.

LAWN INSECTS—Add amount Chlordane E-8 indicated to 5 gallons water and spray or sprinkle over 1,000 square feet area. Ants (as above); chiggers, cutworms, mole crickets, ticks (1 1/2 tablespoonful); earwigs (3 tablespoonfuls); Japanese beetle grubs (1/4 pint); white grubs, wireworms (4 tablespoonfuls to 1/4 pint); sod webworms, lawn moths (4 tablespoonfuls) For earwigs, spray also around house foundations, refuse and compost piles. Don't water treated areas for 48 hours. For Japanese beetle grubs and white grubs, water thoroughly after treatment. For the sod webworms, water lawn
