

LIVESTOCK SPRAY AND DIP

KILLS RESISTANT AND HARD-TO-KILL
ANIMAL PARASITES

NO WAITING PERIOD BETWEEN LAST
APPLICATION AND SLAUGHTER

ONE QUART MAKES 25 GALLONS
OF SPRAY

DIRECTIONS FOR USE

Do not use on dairy animals or in dairy barns.

ON CATTLE: To control Horn Flies, Cattle Lice, Ear Tick, Lone Star Tick, Gulf Coast Tick, Winter Tick, and Cattle Fever Tick, mix one quart of DELNAV EC-15 with 25 gallons of water and stir well to form a creamy emulsion. Spray animals with a strong spray to penetrate to the skin. Wet all portions of the skin thoroughly. Approximately two quarts of spray are required for a full grown cow, and proportionately less for smaller animals. Be sure not to overdose young animals. Repeat as necessary but not more often than once every two weeks. One spraying with DELNAV EC-15 will control Horn Flies up to three weeks and a single application will control Lice.

WARNING

Keep Out of Reach of Children

ACTIVE INGREDIENTS:

Dioxathion—2,3-p-dioxanedithio S, S-bis (O, O-diethyl phosphorodithioate)	10.5%
Related Compounds	4.5%

WARNING: May be fatal if swallowed, inhaled or absorbed through skin. Do not breathe spray mist. Do not get in eyes, on skin or on clothing. Do not contaminate feed and food stuffs. Wash hands thoroughly after using. Do not use or store near heat or open flames. In case of contact, immediately remove contaminated clothing and flush skin or eyes with plenty of water; for eyes get medical attention. Wear clean clothing.

ANTIDOTE:

External — wash with soap and water.

Internal — call a physician immediately; large doses of atropine are antidotal. Give emetic of mustard.

Toxic to fish and wildlife. Do not contaminate water by cleaning equipment or disposal of waste and containers

Do not reuse container. Destroy when empty

NOTICE:

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

ON SHEEP AND GOATS: To control Sheep Ticks, Keds, Sheep Lice, Goat Lice and Wool Maggots use one quart of DELNAV EC-15 with 25 gallons of water, mix well, and spray animals thoroughly. Repeat application at two-week intervals if necessary. Spray animals right after shearing. When dipping animals, be sure to wet them thoroughly. Always stir dipping vat well just before using. Post-shearing treatment will also aid in screwworm control. Do not apply to dairy goats.

ON HOGS: To control Hog Lice use one quart of DELNAV EC-15 to 25 gallons of water, mix well, and spray with a strong spray to thoroughly wet the skin.

BACKRUBBER APPLICATION: For control of Horn Fly and Lice on cattle, dilute 1 part DELNAV EC-15 with 9 parts oil. Apply with conventional cattle oilers. Do not use on dairy animals. Do not spray animals with this solution.
