PROPHYLACTIC USE

Unnecessary use of this product can lead to resistance in pest populations and subsequent lack of efficacy.

EQUIPMENT

Ground Application

For use with boom-nozzle ground equipment. Apply at not less than 5 gallons total mixture water and chemical per acre. Do not use nozzle liquid pressure at greater than 40 pounds per square inch (psi). Do not use cone nozzle size smaller than one capable of delivering 0.16 gallons per nozzle (gpn) at 40 psi such as type D2-25 or TX-10 or any other atomizer or nozzle of very similar drop size.

Aerial Application

Do not apply at less than 2 gallons total mixture of water and chemical per acre. Do not operate nozzle liquid pressure over 40 psi or with any fan nozzle smaller than one capable of delivering 0.4 gpm or fan angle greater than 65 degrees such as type 6504. Do not use any cone type nozzles smaller than those capable of delivering 0.4 gpm nor whet plate smaller than #40 such as type D-40 or any other atomizer or nozzle having smaller drop size. Do not release this material at greater than 10 feet above the crop.

REQUIRED CLOTHING FOR FEMALE WORKERS (WORKING IN COTTON OR WHEAT)

Female ground applicators, mixers and loaders and applicators must wear long-sleeved shirts and long pants made of a closely woven fabric, and wide-brimmed hats. Mixers and loaders must also wear rubber or synthetic rubber boots and aprons.

WARNING TO FEMALE WORKERS (WORKING IN COTTON OR WHEAT)

The United States Environmental Protection Agency has determined that erdion causes birth defects in laboratory animals. Exposure to erdion during pregnancy should be avoided. Female workers must be sure to wear all protective clothing and use all protective equipment specified on this label. In case of accidental spill or other unusual exposure, cease work immediately and follow directions for contact with erdion.

PROCEDURES TO BE FOLLOWED IF FISH KILLS OCCUR OR IF PONDS ARE CONTAMINATED (WHEN APPLIED TO COTTON OR WHEAT)

In case of fish kills, fish must be collected promptly and disposed of by burial. Birds and other animals have occurred, and user-owned ponds exposed to erdion by application of the product closer than otherwise prohibited, must be posted with signs stating "Contaminated No Fish". Signs must remain for one year after the fish is collected or for six months after the user ceases to use the product. Laboratory analysis shows erdion residues in the edible portion of fish to be less than 0.3 parts per million (ppm).

CROP	RATE	WATER PER ACRE	DIRECTIONS FOR APPLICATION
COTTON	5.0	50.0	Apply at not less than 5 gallons total mixture water and chemical per acre. Do not use nozzle liquid pressure at greater than 40 pounds per square inch (psi). Do not use cone nozzle size smaller than one capable of delivering 0.16 gallons per nozzle (gpn) at 40 psi such as type D2-25 or TX-10 or any other atomizer or nozzle of very similar drop size.
WHEAT	2.0	20.0	Do not apply at less than 2 gallons total mixture of water and chemical per acre. Do not operate nozzle liquid pressure over 40 psi or with any fan nozzle smaller than one capable of delivering 0.4 gpm or fan angle greater than 65 degrees such as type 6504. Do not use any cone type nozzles smaller than those capable of delivering 0.4 gpm nor whet plate smaller than #40 such as type D-40 or any other atomizer or nozzle having smaller drop size. Do not release this material at greater than 10 feet above the crop.

STORAGE AND DISPOSAL

PROHIBITIONS: Do not store in unapproved containers. Do not store in unapproved containers. Do not dump or dump into water.

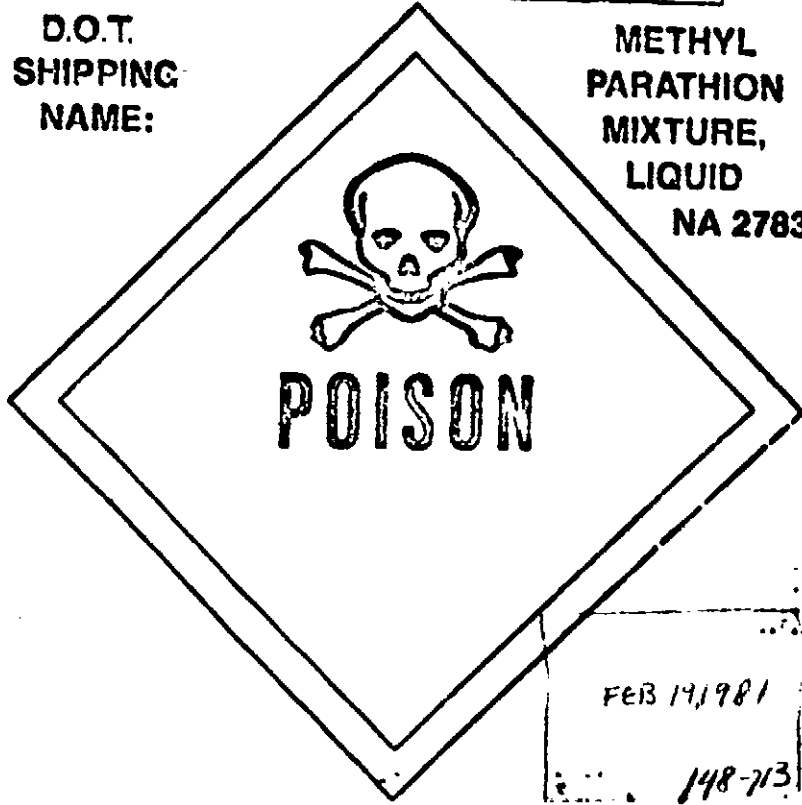

PESTICIDE DISPOSAL: Pesticide spray must be contained in approved containers that cannot be used for other purposes. Do not use for other purposes. Do not use for other purposes.

CONTAINER DISPOSAL: Under 30 gallons: Triple rinse (or equivalent) and reuse for non-pesticide purposes. Do not reuse for pesticide purposes. Over 30 gallons: Empty container and allow for recleaning or disposal. Do not reuse for pesticide purposes. Do not reuse for pesticide purposes.

GENERAL: See label for state and federal laws and regulations concerning pesticide disposal.
