

DE-PESTER

TERRACLOR*, CAPTAN NO. 10 - 10

RECOMMENDATIONS FOR USE

GREEN BEANS: For control of root and stem rot caused by Rhizoctonia and Pythium, apply 20 lbs. per acre and distribute the dust over the seeds and surrounding soil as the seeds are planted.

COTTON: For control of damping-off caused by Rhizoctonia and Pythium, apply 50 pounds per acre and distribute over the seeds and surrounding soil as the seeds are planted.

ORNAMENTALS: For control of damping-off caused by Rhizoctonia and Pythium, thoroughly mix 2 lbs. of dust per cubic yard of greenhouse soil.

To obtain satisfactory results use adequate dusting equipment and apply thoroughly with a uniform deposit of dust.

When used properly Captan will not harm seed, fruit, or foliage. Recommended applications leave no objectionable residues.
