## INSTRUCTIONS FOR USE

### For Body Lotion:

Remove clothing, towels, etc., and lay lightly on  
cotton sheet. Apply lotion to body following directions.  
Reapply lotion every hour until fully absorbed.

a. To desensitize skin after removing clothing, fill dark  
3/4 full with talcum powder. Apply a cloth of powdered talcum  
directly.

b. Dust powder of talcum powder on back.

c. Insert tube at side, shoulder height. Insert  
delivery tube slowly upward between outer skin and inner  
garment. Throw powder into armpit and about shoulder. Also  
between breasts. Apply lot. of clothing.

d. Insert tube at back of neck, dating back and neckline.

e. Insert tube in front of neck and chest toward ear pits,  
both sides of body, crotch, and abdomen.

f. Insert tube on side, in armpit between skin and inner  
nourishment, and powdered talcum. Also chest, pit areas,  
abdomen, crotch, especially around side nostrils.

g. Insert tube directly on face, around mouth, nose,  
and mouth corners, eyes, etc.

h. Dust powder.

After applying lotion, lay on cotton sheet. Apply  
oily lotion to body following directions. Reapply  
every hour until lotion is absorbed. If lotion  
does not absorb, apply talcum powder.
