GALLON

HEPTACHLOR E-3

FOR TERMITE CONTROL By PEST CONTROL OPERATORS ONLY

WARNING - Keep Out of Reach of Children

ACTIVE INGREDIENTS:

Heptachlor*	31.7 %
Related compounds	11.7 %
Aromatic petroleum derivative solvent	51.6 %

INERT INGREDIENTS	5.0 %
------------------------------------	-------

100.0 %

*(Heptachlorotetra Hydro-4,7-Methanoindene)

DIRECTIONS

BEFORE USE READ DIRECTIONS, WARNING AND NOTICE STATEMENTS CAREFULLY

CONTROL OF TERMITES

Add 1 gallon of Heptachlor E-3 to 72 gallons of water (0.5% emulsion). Apply the 0.5% emulsion as follows:

1. Slab-Type Construction

- a.- Apply 1 gallon per 10 square feet as an over-all pre-construction treatment under the slab and along attached porches or entrance platforms.
- b.- Apply 2 gallons per 5 lineal feet to critical areas under the slab as pre-construction treatment, such as along the inside of the foundation walls and around utility entrances and interior partition foundation walls.

2. Buildings With Crawl Spaces

- a.- Apply 2 gallons per 5 lineal feet in a trench along the outside of foundation walls, including entrance platforms and porches where the foundation is not more than 15-18 inches deep. If over 15-18 inches deep but not over 30 inches, apply 4 gallons per 5 lineal feet. Do not go deeper than the top of the footing.
- b.- Apply 2 gallons per 5 lineal feet as a trenching application to critical areas under the house, such as along the inside of foundation walls and around piers and utility entrances. If trench is deeper than 15-18 inches but not over 30 inches, apply 4 gallons per 5 lineal feet. Do not go deeper than the top of the footing.
- c. Apply 1 gallons per 10 square feet of soil surface as a pre-construction treatment where the attached porches, entrance platforms, utility entrances, etc., have covering slab on fill of ground.
- d. Apply 1 gallon per 5 lineal feet of wall to voids in hollow masonry units of foundation.

3. Buildings With Basements

- a. Apply 1 gallon per 10 square feet as an over-all pre-construction treatment under the basement flooring, attached porches, entrance platforms, utility entrances, and similar situations where slab fill is at ground level.

- b. Apply 2 gallons per 5 lineal feet in a trench along the outside of foundation walls, including entrance platforms and porches where the foundation is not more than 15-18 inches deep. If over 15-18 inches deep but not over 30 inches, apply 4 gallons per 5 lineal feet. Do not go deeper than the top of the footing.
- c.- Apply 2 gallons per 5 lineal feet as a trenching application to critical areas under the house, such as along the inside of foundation walls, porches, entrances and piers. If trench is deeper than 15-18 inches but not over 30 inches, apply 4 gallons per 5 lineal feet. Do not go deeper than the top of the footing.
- d. Treat all voids in hollow masonry units of the foundation at the rate of 1 gallon per 5 lineal feet of wall.

This product is toxic to fish and wildlife. Birds feeding on treated areas may be killed. Keep out of any body of water. Do not apply when weather conditions favor drift from areas treated. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label. **WARNING - FLAMMABLE - KEEP AWAY FROM HEAT OR OPEN FLAME.** Do not reuse container. Destroy when empty.

ANTIDOTE

EXTERNAL— In case of spillage on skin, wash promptly with soap and water.
INTERNAL— Emetic of 1 tablespoonful mustard in tumbler of water. CALL A PHYSICIAN.

WARNING

May be fatal if swallowed. Do not breathe vapor, dust or spray. Do not get on skin. In case of contact wash immediately with soap and water. Do not contaminate feed and food-stuffs. Misuse as to quantity, timing or method of application can cause damage or injury to animals, persons, property or crops or cause residues in excess of official tolerances.

NOTICE

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
