

DIRECTIONS FOR USE

CROP: PEANUTS

DISEASE: Cercospora Leaf Spot, aid in correcting the deficiency of boron.

Apply undiluted as a dust at the rate of 20 pounds acre when spots first appear on old leaves at the base of the plants. Only one application should be made per season. Dusting should be done with a machine capable of depositing a thin uniform coating of dust on all above ground plant surfaces. Dusting should only be done when the foliage is dry. Severe burning may result if application is made when the leaves are wet. Use of more than the recommended dosage may result in reduced yields.
