Net Weight 25 lbs.

DRY CHLORINE CONCENTRATE FR

for chlorinating pools

DANGER: KEEP OUT OF REACH OF CHILDREN
SEE FIRST AID AND OTHER PRECAUTIONS ON BACK PANEL

ACTIVE INGREDIENT: Sodium Dichloro-s-Triazinetrione Dihydrate.....100%
Available Chlorine 56%
EPA REG. NO. 148-1167 EPA EST. NO. 148-KS-1

ACCEPTED
JAN 13 1975
U.S. DEPARTMENT OF AGRICULTURE
FUNGICIDE, HERBICIDE AND PESTICIDE ACT
FOR FEDERAL FUMIGATION REGISTERED
EPA UNDER NO. 148-1167

RECEIVED
8 JAN 1975
REGISTRATION DIVISION
PESTICIDES, EPA

DRY CHLORINE CONCENTRATE FR

- Features a dry chlorine that dissolves immediately.
- A most effective germicide and algicide.
- Will not cause cloudiness in water.
- Will not add scale forming minerals in the water.
- Will maintain your pool crystal clear.
- Flame-resistant.

The control of pH is greatly simplified using DRY CHLORINE CONCENTRATE FR. In fact, you will require from 1/2 to 1/4 the amount of acid usually applied. DRY CHLORINE CONCENTRATE FR provides a more stable form of chlorine for easier maintenance of an effective chlorine residual in pool water for disinfecting action. It requires less storage space and maintains constant strength regardless of storage time. It is economical to use in that, after the pool is stabilized, you will need to apply DRY CHLORINE CONCENTRATE FR less often.

DANGER: Corrosive. Causes eye damage. Do not get in eyes or on skin. Wear safety goggles, dust respirator and protective clothing when handling. Do not breathe dust. Dust may be harmful if inhaled. May cause skin, nose and throat irritation. May be fatal if swallowed. May cause burns to broken skin.

DANGER: Strong oxidizing agent. Moisture contamination may liberate irritating and hazardous chlorine-containing gases. Decomposes at 350-475°F with liberation of harmful gases. In case of decomposition, if possible isolate container in open air or well ventilated area. Flood with large volume of water if necessary.

Mix only with water. Do not mix with other pool chemicals. Use only dry, clean measuring utensils. Store in a cool dry place. Keep closed when not being used.

Do not reuse container. Rinse empty container thoroughly with water and discard.

This product is toxic to fish. Treated pool effluent water should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of wastes.

Apply this product only as specified on this label.

FIRST AID: In case of personal contact remove excess material and flush skin or eyes with cold water for at least 15 minutes. For eyes get medical attention. Clean contaminated clothing before reuse.

If swallowed, feed gruel or cooked cereal followed by olive oil or cooking oil. Call a Physician immediately.

INSTRUCTIONS: When starting up a new pool, superchlorinate to satisfy chlorine demand and to establish a chlorine residual of 1.0 ppm to 2.0 ppm available chlorine. To accomplish this, add 2 ozs. DRY CHLORINE CONCENTRATE FR per 1,000 gallons of pool water. The next morning, add STABILIZER (cyanuric acid) at the rate of 4 ozs. per 1,000 gallons to stabilize the pool.

DRY CHLORINE CONCENTRATE FR should be added daily or as needed at the rate of 1/8 to 1/4 oz. per 1,000 gallons of pool water to maintain a chlorine residual at all times of 1.0 ppm to 2.0 ppm as determined by a suitable test kit. The pH should be maintained between 7.2 and 7.8.

A shock treatment should be made every week during hot weather or after heavy rains. Less frequent shock treatments may be made during cool weather. For the shock treatment, add 2 ozs. of DRY CHLORINE CONCENTRATE FR per 1,000 gallons of pool water. Swimmers should not be permitted in the pool after the shock treatment until the chlorine residual has reached the 1.0 ppm to 2.0 ppm range.

Keep in mind that slight flexibility must be maintained in the event of heavy accumulations of dust and dirt caused by storms or super heavy bathing loads which require additional dosages as needed to maintain the chlorine residual between 1.0 ppm and 2.0 ppm. **NOTICE:** Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
