

0001 ST

1957

ACTIVE INGREDIENT: Sodium dichloro-s-triazinetriene dihydrate
NET WEIGHT: 1.00 lb. (454 g)

49-15
50-15

Contains 1.25% available chlorine

POA Reg. No. 148-1194

EPA Reg. No. 148-1194

freestyle

POOL START C

Harmful if swallowed. May cause eye damage. Protect eyes when handling. May cause irritation to skin, nose and throat. May cause burns to broken skin. Do not breathe dust. Do not get in eyes or on skin.
FIRST AID: If swallowed: Feed gruel or cooked cereal followed by olive oil. Call a physician. In case of skin contact: Remove excess material and flush skin with cold water; clean contaminated clothing before reuse. In case of eye contact: Flush with cold water for at least 15 minutes. Call a physician.

Apply this product only as specified on this label.

Recommended for use just once to start your pool with fresh water, then use DRY CHLORINE CONCENTRATE FR or 90% CHLORINE TABLETS to maintain the chlorine residual. POOL START C is a conditioner which prepares your pool for DRY CHLORINE CONCENTRATE FR or 90% CHLORINE TABLETS and permits immediate chlorine effectiveness and economy. POOL START C satisfies chlorine demand of swimming pool water by oxidizing organic matter and reducing the number of bacteria and algae. It simultaneously provides cyanuric acid (s-triazinetriene) to stabilize chlorine.

INSTRUCTIONS FOR USE:

1. Clean or backwash filter.
2. Using a reliable test kit, test the pH level and adjust it to 7.2 to 7.6 (if it is above 7.6, add pH DOWN; if it is below 7.2, add pH UP).
3. In the amount shown in the table below - add POOL START C slowly through the surface skimmer.
4. Wait two hours and again adjust pH to 7.2 to 7.6.
5. Test chlorine residual with a reliable test kit. Do not allow swimmers in pool until chlorine residual has dropped below 2.0 ppm.
6. Add DRY CHLORINE CONCENTRATE FR or 90% CHLORINE TABLETS according to package directions to maintain a minimum chlorine residual of 1.0 to 1.5 ppm at all times.

DOSAGE CHART

Pool Capacity (gals)	To Provide 25 ppm Cyanuric Acid and 10 ppm Available Chlorine	To Provide 20 ppm Cyanuric Acid and 6.2 ppm Available Chlorine
5000	1 lb. 9-1/2 oz.	1 lb. 4 oz.
10000	3 lbs. 3 oz.	2 lbs. 8 oz.
15000	4 lbs. 12-1/2 oz.	3 lbs. 12 oz.
20000	6 lbs. 6 oz.	5 lbs.
25000	7 lbs. 15-1/2 oz.	6 lbs. 4 oz.
50000	15 lbs. 15 oz.	12 lbs. 8 oz.
100000	31 lbs. 3 oz.	25 lbs.

STORAGE AND HANDLING PRECAUTIONS: Store in a cool, dry well ventilated area. Danger. Oxidizing Material. Do not mix with other chemicals. Keep away from excessive heat. Fire or thermal decomposition may produce chlorine or equally toxic gases.

Do not reuse empty container. Rinse empty container thoroughly with water before discarding.

This product is toxic to fish. Treated effluent pool water should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of wastes.

Use only as specified above.

NOTICE: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
