1 OZ. TRICHLORO TABS
for chlorinating pools

**KEEP OUT OF REACH OF CHILDREN
DANGER**

STATEMENT OF PRACTICAL TREATMENT

For Eyes: Flush eyes with plenty of water and call a physician immediately.

For Skin: Remove contaminated clothing, wash skin with water.

If Inhaled: Remove to fresh air.

If Swallowed: Drink raw egg white, milk or rice gruel. Follow with emetic (tablespoon of mustard in a glass of warm water). Call Physician or Poison Control Center immediately.

SEE ADDITIONAL PRECAUTIONS ON BACK PANEL.

ACTIVE INGREDIENT Trichloro-s-triazinetriene
INERT INGREDIENTS

99.4%
13.6%

EPA REG NO 146-

EPA REG NO 39841-MC-1

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER

DANGER. Corrosive. Causes eye damage. Do not get in eyes. Avoid breathing dust. Avoid skin contact. May cause burns on broken skin. Causes irritation on wet skin. May be fatal if swallowed. Do not use on humans or household pets. Keep out of reach of food and feed.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Treated pool effluent water should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS

Strong oxidizing agent. DO NOT MIX WITH ANYTHING OTHER THAN WATER IN LARGE QUANTITIES. Mixture with other materials, including algaecides and other chlorine compounds may result in fire or explosion.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Keep from heat, flame or moisture. Keep container covered in cool, dry, well ventilated place away from leaks, spills, etc. Area must be completely clean.

PESTICIDE DISPOSAL: Securely wrap in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse container. Rinse thoroughly before discarding in trash.

USE INSTRUCTIONS

WARNING: Do not throw these tablets directly into the pool, they may stain, bleach or etch the bottom.

Before adding these tablets to any feeder, make sure that all other chemicals have been dissolved or removed. Mixing different types of chemicals in a feeder may result in FIRE or EXPLOSION.

1. The filter system should be backwashed or properly cleaned and the pH adjusted between 7.2 and 7.6.
2. Initially the pool water should be conditioned with Stabilizer according to label directions.
3. The pool should first be super-chlorinated so that a chlorine residual of 5 ppm available chlorine obtained as determined by use of a good test kit.
4. Thereafter, use sufficient tablets or set feeder controls to maintain an average residual of 1.0 to 2.0 ppm as determined by use of a good test kit.
5. These tablets are slow dissolving and are designed for use in any of the several types of dry chemical feeders commonly installed on swimming pool filter systems. They should be used in accordance with instructions furnished by the manufacturer of the feeder involved.
6. These tablets are acidic and will balance the high pH of pool water in most areas. Test the pH of your pool water at regular intervals as required to maintain a pH of 7.2 to 7.6. IMPORTANT: Water at pH below 7.0 will burn the eyes and may damage the pool or filtering system. At pH above 8.0 eye irritation also occurs and chlorine effectiveness rapidly diminishes.
7. Tablets may be placed directly in the skimmer ONLY if skimmer and connected plumbing are ALL PLASTIC. They will damage metal skimmers and plumbing.
