# TERRO<sup>®</sup>

## ROACH KILLER

### DIRECTIONS

Clean up thoroughly all garbage and food particles which attract roaches. Cut off tip of spout and squeeze to use. Direct puff of TERRO Roach Killer into cracks and crevices behind sinks, refrigerators, stoves, cabinets, on water pipes and at holes where pipes come through floors. TERRO should not be placed in areas that are accessible to children and pets. After application is completed any visible powder should be carefully brushed into cracks and crevices or removed. Apply generously. Repeat once a week or as needed. Guaranteed to kill roaches, water bugs, silverfish and crickets.

Do Not Re-Use Container. Destroy When Empty.

**WARNING:** May be fatal if swallowed. Do not breathe dust. Do not contaminate feed and foodstuffs. Keep away from children and domestic animals.

**ANTIDOTE:** Tablespoon salt in lukewarm water. Repeat every 10 minutes until vomiting occurs. Have patient lie down. Call physician.
