TERRO ANT KILLER

TERRO
ANT KILLER
For Control of
Sweet Eating Ants

DIRECTIONS

Tear piece of cardboard along perforated lines from carton. Put TERRO on it where ants are seen. First they come in large numbers, but soon disappear. Ants carry TERRO back to their nests, often eliminating the entire colony. Repeat as necessary.
Note: Wipe off neck ring before replacing cap. If cap sticks upon next usage, run under hot water to loosen.

Grease Ants: Grease ants are not attracted to TERRO. However, by mixing TERRO with cooking oil or light machine oil relief from these pests may possibly be obtained.

Active Ingredients:
Sodium Arsenate 2.27%
Inert Ingredients: 97.73%
Total Arsenic (as Metallic) 0.91%
Arsenic in water soluble form (as Metallic) 0.91%

WARNING: May be fatal if swallowed. Keep away from children and domestic animals. Avoid contact with skin, eyes, clothing and foodstuffs. Wash thoroughly after contact.

EPA Reg. No. 149-2
EPA Est. 149-MO-1

WARNING: May be fatal if swallowed. Keep away from children and domestic animals. Avoid contact with skin, eyes, clothing and foodstuffs. Wash thoroughly after contact.

TERRO ANT KILLER
