Georgia Anastasiou, Agent
Senoret Chemical Company, Inc
c/o Lewis & Harrison
2461 S Clark St. Suite 710
Arlington, VA 22202

Subject: Notification per PRN 98-10 – Adding brackets to make language associated with the use of stakes as optional, and adding optional language related to how the package can be opened and optional graphic
Product Name: Terro Ant Killer II
EPA Registration Number: 149-8
Application Date: 5/6/2022, 5/22/2022
Decision Number: 587019, 587756

Dear Ms. Anastasiou

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application dated 5/22/2022 has been stamped “NOTIFICATION” and placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

TOTAL 100.00%

KEEP OUT OF REACH OF CHILDREN

CAUTION

NET CONTENTS:

[___ Bait Stations ___ Bait Stakes ___ fl. oz. (___ ml) / ___ fl. oz. (___ ml) each]

[MASTER LABEL - BACK PANEL PAGE 1 OF 3]

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FOR USE IN AND AROUND: Homes, Hospitals, Restaurants, Apartments, Grocery Stores, Institutional Buildings, Schools, Cafeterias, Warehouses, Storage Areas, Food Processing Plants, Mobile Homes, Boats, Military Bases, Theaters, Nursing Homes, and on Military, Commercial, and Cruise Ships.

ATTRACTS AND KILLS ALL COMMON HOUSEHOLD ANTS INCLUDING: Argentine ants, Ghost ants, Cornfield ants, Pavement ants, Acrobat ants, White footed ants, Little black ants, Odorous house ants, Crazy ants, Big headed ants, and other sweet eating ants.

USING TERRO® ANT KILLER II: Tear pieces of cardboard from the carton along the perforated lines. (Small pieces of paper, cardboard, or foil also may be used). Apply the product to the cardboard and place product where ants are seen, such as the edges of sinks, tubs, window sills, under food cabinets, along floors and baseboards and in corners. Do not skimp on bait placements; the more bait placements the better. Since invading ants usually have outdoor nesting sites, it often helps to put the product outside, close to where ants are found entering the structure. Ants typically follow defined trails from the nest to food or water. Placing TERRO® Ant Killer II close to these trails will improve control.

CONTROLLING AND ELIMINATING ANTS: First ants will come in large numbers, but soon disappear. This product is specifically formulated to allow worker ants to consume the product and survive long enough to carry the liquid back to the nest and deliver a dose to the rest of the colony. The key to obtaining effective control is to monitor the placements and ensure there is always a fresh supply of TERRO® Ant Killer II on each placement. Complete control may take up to two weeks.

USING TERRO® BAIT BULLETS: This package contains TERRO® Ant Killer II and TERRO® Bait Bullets. Fill the TERRO® Bait Bullets half full with TERRO® Ant Killer II and place them, out of reach of children and pets, on a flat surface close to areas where ants are seen foraging or nesting. As the ants begin to feed on the bait you will notice many ants inside and around the opening to the Bait Bullet. If the ants consume the entire bait, simply refill the Bait Bullet.

USING TERRO® BAIT BULLETS AS A PERIMETER ANT DEFENSE SYSTEM: Take a few minutes to locate areas close to your home where ants are seen trailing. Place the Bait Bullets against the foundation where you have located ant movement. Space the Bait Bullets every 5 to 10 feet for maximum coverage. Check the Bait Bullets regularly for activity. Remember ants will feed on TERRO® Ant Killer II and carry the bait back to the rest of the colony. Heavy infestations may require several bait placement refills and up to two weeks to control.

USING TERRO® ANT KILLER II PRE-FILLED BAIT SYSTEM: Terro® Ant Killer II now comes as an easy-to-use pre-filled liquid ant bait [for outdoor use]. Ants will enter, feed and return to the nest where they will pass on the Terro® Ant Killer II to the rest of the colony.

- \$ Pre-filled
- \$ Ready to Use
- \$ No drips, spills, or mess

[MASTER LABEL - BACK PANEL PAGE 2 OF 3]

1. [Break pre-filled TERRO® Ant Killer II baits apart from plastic frame.]
2. Hold baits upright and [cut along dotted line at the top] or [cut off orange colored section] or [Hold the pre-filled bait station level and peel back clear {or other appropriate descriptive term} seal to expose entry point to bait.] or [hold firmly with one hand while [breaking] [twisting] [snapping] off the bait pack tab.]
3. Place baits label side up near ant trails or close to where ants are numerous. Place additional TERRO® Ant Killer II baits anywhere ants may enter your home. [For best results, use [all] [number] baits to ensure sufficient supply for the ants.]
4. Monitor regularly for activity but do not interfere with the ants or baits. Replace with additional baits when first set is depleted.
5. Once ants are controlled, replace TERRO® Ant Killer II baits every 3 months to keep ants from returning.

TERRO® OUTDOOR LIQUID ANT BAIT:

1. [REMOVE STAKES by pulling them straight out from underneath cup. DO NOT REMOVE CUP.]
2. [PUSH DOWN on the top of the cup, then twist cup 1/4 turn.] [Slide cup over bait reservoir. Cup will lock into place. Twist cup [1/4][1/2][full] turn.] The foil seal under the cup will be punctured and the liquid bait will drip into the reservoir in the base. **KEEPS BAIT LEVEL TO AVOID SPILLING.**
3. PLACE BAIT STATIONS outdoors close to where ants are found entering your home, or where you see ant nests or their trails.
4. [SECURE BAIT STATIONS to the ground, if desired, by inserting the stakes provided through the holes in the base.]
5. ANTS WILL ENTER the bait station through the holes at the top of the ramps.
6. MONITOR regularly for activity, but do not interfere with the ants or baits. Replace baits every three months to keep ants from returning. Complete control may take up to two weeks.
7. CALL US at 1-800-800-1819 if we can be of assistance.

TERRO® OUTDOOR LIQUID ANT BAIT STAKES [TERRO® OUTDOOR LIQUID ANT STAKES]:

1. PLACE TERRO® Ant Killer II [BAIT STATIONS] outdoors close to where ants are found entering your home, or where you see ant nests or their trails.
2. Insert Terro® Outdoor Liquid Ant [Bait] Stakes [bait stakes] into area to be treated by pushing firmly into the ground with your hand until the bottom of the bait stake contacts the ground. DO NOT use your foot or a tool to place in ground.
3. Keeping bait stake upright, hold firmly with one hand while [breaking][twisting][snapping] **[cutting]** off bait pack tab.
4. Ants will enter the bait stake through the hole created by removing the bait pack tab.
5. Monitor regularly for activity, but do not interfere with the ants or baits.
6. Replace baits every three months or when bait level is no longer visible [through] [bait window] [stake window] [see-through monitor]. Complete control may take up to two weeks.
7. Call us at 1-800-800-1819 if we can be of any assistance!

DO NOT USE in edible product areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. Avoid contamination of feed and foodstuffs. Place bait in areas inaccessible to children and pets. For further information on successful ant control using the TERRO® brand of ant control products, visit our web site (www.Terro.com).

[MASTER LABEL – BACK PANEL PAGE 3 OF 3]

PEST CONTROL OPERATORS

TERRO® Ant Killer II can be diluted with water to obtain a 1% or 2% solution of Borax. Such a dilution is helpful when you plan on using a substantial volume of Terro® Ant Killer II in a baiting program designed to control very large multi-queen and multi-colony ant infestations. In these cases, you want the worker ants to carry as much volume of bait back to the colony as possible. To do this, you can dilute Terro® Ant Killer II to obtain a 1.0% per cent borax level. Upon a follow-up inspection, if ants still exist in great numbers, repeat initial treatment using a 2.0% solution. Once the ant infestation has improved dramatically, no dilution of the bait is recommended for follow-up treatments.

1% Dilution: 1 part TERRO® Ant Killer II to 5 parts water. Mix thoroughly.

2% Dilution: 1 part TERRO® Ant Killer II to 2 parts water. Mix thoroughly.

COMMON DILUTIONS

1% Dilution

TERRO	+	WATER	=	FINISHED PRODUCT
5 fl. oz.	+	25 fl. oz.	=	1 Quart (approximately)
20 fl. oz.	+	100 fl. oz.	=	1 Gallon (approx.)
1 gallon	+	5 gallons	=	6 Gallons

2% Dilution

TERRO	+	WATER	=	FINISHED PRODUCT
10 fl. oz.	+	20 fl. oz.	=	1 Quart (approximately)
42 fl. oz.	+	84 fl. oz.	=	1 Gallon (approx.)
1 gallon	+	2 gallons	=	3 Gallons

USING TERRO® ANT KILLER II IN BAIT STATIONS: Apply the 1% or 2% Terro® Ant Killer II solution using bait stations designed to hold liquid bait. This product will work well in most bait stations such as those made by B&G, Kness, and Whitmire Micro-Gen. Follow directions included with the bait stations to obtain best results.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

STORAGE: Store in a cool dry place. Do not store where children or animals may gain access.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Nonrefillable Container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
